

****Attention Racers of Polaris MY22 & MY23 600
Cross Country Snowmobiles***

The MY22 and MY23 Matryx 600 Cross Country Snowmobiles were built with an Aluminum recoil pulley (#3023960 – Aluminum Pulley), circled in Red on below picture. It is recommended to replace the aluminum pulley with the MY24 600 Cross Country steel pulley (#3021618 – Steel Pulley). The steel pulley can be ordered from the Polaris Race Dept or any Polaris Snowmobile dealer. It is a direct replacement part. This change has been approved by ISR.
