

WE'RE PROUD TO BE AMERICA'S FIRST MOTORCYCLE COMPANY

In 1901, two fearless pioneering innovators—George M. Hendee and Oscar Hedstrom—founded America's first motorcycle company: Indian Motorcycle. They started Indian Motorcycle by taking a risk and going all-in on something entirely new and unheard of to most Americans—the motorcycle. Their passion lives today at the core of our brand with a simple yet powerful vision:

MAKE THE FIRST MOVE

INDIAN CHIEFTAIN

Designed for riders who appreciate a thoroughly modern and capable motorcycle, Chieftain provides a classic American air-cooled V-twin riding experience. The incredibly smooth Thunderstroke engine delivers massive low-end torque for instant acceleration. Three distinct ride modes tailor the power further to your needs and rear cylinder deactivation improves comfort and fuel economy.

Chieftain raises the bar with modern and mean styling. Front to back the design is confident, showcasing premium finishes that get noticed. Chieftain features a stylish fork-mounted fairing, hard luggage, and crystal-clear audio. Nimble handling impresses thanks to a cast aluminum frame, low seat height and ergonomically-designed controls. Plus ride-enhancing technology, infotainment and modern amenities provide the ultimate in function mile after mile. Chieftain lets you experience firsthand what quality craftsmanship feels like in a bike that makes no excuses.
