

WE'RE PROUD TO BE AMERICA'S FIRST MOTORCYCLE COMPANY

In 1901, two fearless pioneering innovators—George M. Hendee and Oscar Hedstrom—founded America's first motorcycle company: Indian Motorcycle. They started Indian Motorcycle by taking a risk and going all-in on something entirely new and unheard of to most Americans—the motorcycle. Their passion lives today at the core of our brand with a simple yet powerful vision:

MAKE THE FIRST MOVE

INDIAN SPRINGFIELD

Designed for riders who appreciate timeless style and design mixed with performance and comfort. The Indian Springfield is a thoroughly modern and capable motorcycle that provides a classic American air-cooled V-twin riding experience thanks to the incredibly smooth Thunderstroke engine. With three distinct ride modes and a 6-speed gearbox it delivers massive low-end torque for instant acceleration.

Modern amenities like keyless ignition, cruise control, USB charging port and rear cylinder deactivation means there's no sacrificing classic style for comfort or technology. Cast aluminum frame, low seat height and ergonomically-designed controls provide confident handling in town and on longer trips. Classic style is authentic to Indian Motorcycle's heritage and makes a statement for riders who value craftsmanship.
