

WE'RE PROUD TO BE AMERICA'S FIRST MOTORCYCLE COMPANY

In 1901, two fearless pioneering innovators – George M. Hendee and Oscar Hedstrom – founded America's first motorcycle company: Indian Motorcycle. They started by taking a risk and going all-in on something entirely new and unheard of to Americans – the motorcycle. Their passion and fearlessness live on today at the core of our brand and our vision:

MAKE THE FIRST MOVE

INDIAN SCOUT

Our Indian Scout lineup delivers iconic styling and modern performance with the uncompromising attention to detail you'd expect from a premium motorcycle. It's a classic American V-twin with perfect proportions, beautiful paint and jewel-like premium finishes.

The lightweight design with 100 horsepower and 6 speed gearbox makes Scout the perfect performance model for new and returning riders. All riders will appreciate precise and confident handling from a cast aluminum frame, low seat height and ergonomically-designed controls. Scout lets everyone experience firsthand what quality, American craftsmanship feels like in a modern performance motorcycle whose style makes no excuses.
