

WE'RE PROUD TO BE AMERICA'S FIRST MOTORCYCLE COMPANY

In 1901, two fearless pioneering innovators – George M. Hendee and Oscar Hedstrom – founded America's first motorcycle company: Indian Motorcycle. They started by taking a risk and going all-in on something entirely new and unheard of to Americans – the motorcycle. Their passion and fearlessness live on today at the core of our brand and our vision:

MAKE THE FIRST MOVE

INDIAN SCOUT SIXTY

Our Indian Scout lineup delivers iconic styling and modern performance with the uncompromising attention to detail you'd expect from a premium motorcycle. It's a classic American V-twin with perfect proportions, beautiful paint and jewel-like premium finishes.

The lightweight design with smooth power makes Scout the most accessible model in our lineup for new and returning riders. All riders will appreciate precise and confident handling from a cast aluminum frame, low seat height and ergonomically-designed controls. Scout lets everyone experience firsthand what quality, American craftsmanship feels like in a modern performance motorcycle whose style makes no excuses.
