

Regulatory Notification

INDIAN MOTORCYCLE PERFORMANCE PARTS & KITS

Indian Motorcycle recognizes the importance of local, state and federal laws that regulate exhaust and noise emissions and is committed to developing performance parts that allow motorcycle enthusiasts to modify their vehicles in a safe and responsible manner for racing applications.

Exhaust Emissions / Safety - Federal and many state laws prohibit the removal, modification, or rendering inoperative any part installed on motor vehicles by Indian Motorcycle affecting exhaust emissions or safety on motor vehicles manufactured for use on a public street or highway. Violation may result in fines.

Noise Emissions - Certain Indian Motorcycle performance exhaust parts are subject to noise-related usage restrictions where non-competition street use may violate federal noise limits. Where applicable, Indian Motorcycle performance exhaust parts are affixed with a label that provides, "This product is designed for use on closed course competition motorcycles only and does not conform to U.S. EPA noise emission standards. Use on motorcycles subject to EPA noise regulations constitutes tampering and is a violation of Federal law unless it can be shown that such use does not cause the motorcycle to exceed applicable Federal standards."

Prior to equipping your Indian Motorcycle with any performance part or kit, make sure you are aware of and familiar with all applicable local, state and federal laws and restrictions that may affect the use of your motorcycle based on your configuration and equipment.
