

A SUPPORT PARTNER THAT YOU CAN COUNT ON

Polaris is committed to engineering and building vehicles that are easy to operate, maintain, sustain and support in the field. Polaris provides mechanic and operator training directly from the OEM and our established network supports vehicles with service, parts and maintenance without costly overhead.

TRAINING YOU CAN TRUST

Polaris provides government customers with the capability to support and maintain a fleet of vehicles independently through maintenance and operator training courses. These courses are available directly through Polaris, or via GSA and DLA contracts.

OPERATOR TRAINING

- ▶ New Equipment Training | \$
- ▶ Driver Safety Training Course | \$
- ▶ Master Driver Training Course | \$\$

MECHANIC TRAINING

- ▶ Mechanic Certification Course | \$\$
- ▶ Advanced Diagnostics and Drivetrain Certification Course | \$\$

MORE OPTIONS – LESS HASSLE

Engineered with commercial, readily available off-the-shelf consumer components, the easy-to-maintain designs of our vehicles keep them servicing you. Through your online account, you will have access to a variety of easy-to-use maintenance resources (polaris.com/gov).

PARTS LOOKUP

Looking up parts has never been easier. Through your vehicle's VIN, you will be able to view part schematics and find part numbers for anything you need. Parts can then be ordered directly online and will be quickly delivered to you. Government pricing is available.

ACCESSORIES

Make your vehicle work harder for you. Upfit your vehicle post-purchase with easy to order accessories; filter by model or VIN to explore accessories made to fit your vehicle.

MY GARAGE

Easily manage your vehicle's maintenance schedule, log maintenance, access manuals and bulletins, track accessories and look up error codes after easily connecting your vehicle via VIN number.

MAINTENANCE THAT GOES THE DISTANCE

VEHICLE 101

DIY like a pro with online self-help resources provided through Vehicle 101, access riding techniques, maintenance articles and videos and accessory installation instructions.

WARRANTY & MANUALS

Access your vehicle's warranty information and download manuals through an easily accessible online portal.

MAINTENANCE TIMELINES

Maintenance timelines are available for all vehicles to advise when to carry out routine vehicle maintenance such as oil changes, fluid replacements and more.

FIELD SERVICE REPS

Need to call in the pros? Our highly qualified team of Field Service Representatives are available to service a fleet of vehicles on-site.
