# TOUGH DOESN'T QUIT

When you invent categories, your work is never finished. We're riders, relentlessly chasing the next ride. It's race-inspired performance that propelled our people to podiums at DAKAR and the Baja 1000, or a crew of relentless explorers who want to break free from the everyday and get deep into the backcountry. Tough doesn't stop when the light fades, tough doesn't settle for second place, and tough doesn't quit.

You need something rugged and reliable. A cooler purpose-built to handle the challenges of the off-road—while keeping your provisions on ice for days on end. Because out here, there are no ice machines, and you just left the last one in your dust. So, load it up. Lock it in. And know your NorthStar cooler is staying put—giving you a few extra days of ice time to enjoy the wild.

# TIRE SEALANT

24 X 7 COVERAGE | BE PREPARED FOR ANYTHING

## HOW IT WORKS

- 1 Tire sealant remains liquefied inside the tire until a leak develops in the tire or wheel.
- 2 Once a leak occurs, the tire sealant rushes out of the tire and quickly creates a permanent solid plug, maintaining tire pressure so you can continue your ride.

### HOW MUCH DO YOU NEED?

$$\text{TIRE HEIGHT (IN.)} \times \text{TIRE WIDTH (IN.)} / 5 = \text{OUNCES REQUIRED PER TIRE}$$

- 100% water soluble for easy cleanup
- Remains fluid and effective in temperatures down to -45° F

# OIL & LUBRICANTS

Our PS-4 engine oils provide ultimate performance and protection, they're formulated with exclusive additives to keep engines clean from deposit buildup. These powersports-grade full synthetic oils helps maximize power and protect your engine for the long term.

## PS-4 FORMULATIONS BEST PROTECTION, BEST PERFORMANCE

### PS-4 5W-50 FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -40° F to 100° F.

1 Quart 2876244	1 Gallon 2876245	16 Gallons 2876247	55 Gallon Drum 2876246	330 Gallon Tote 2878814
--------------------	---------------------	-----------------------	---------------------------	----------------------------

### PS-4 0W-50 EXTREME FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -45° F to 130° F.

1 Quart 2889395	1 Gallon 2889396	16 Gallons 2889397	55 Gallon Drum 2889398	330 Gallon Tote 2889399
--------------------	---------------------	-----------------------	---------------------------	----------------------------

### PS-4 EXTREME SYNTHETIC 0W-50

- Our best extreme high and low temp formula, excellent for high temperatures and racing, even at temps of 130°F, plus easier cold starting even below -45°F
- Expect the best in wear protection thanks to premium PAO and ester base stocks combined with a balance of moly and ZDDP additives
- Polaris exclusive clean engine additive system reduces deposits and carbon build-up for peak performance and power

### THE BEST PROTECTION, MAXIMUM PERFORMANCE

- Powersports grade full synthetics provide long lasting engine protection
- At least 40% improved wear protection compared to all aftermarket oils tested (see engine wear test chart)
- Polaris exclusive clean additive system
- At least 50% less deposits than all aftermarket oils tested (see deposit test chart)
- Cleaner engine with less deposits means consistent maximum power and performance

### WIDEST VISCOSITY FOR ULTIMATE PROTECTION

### ENGINE WEAR TEST

LOWER NUMBER = LESS ENGINE COMPONENT WEAR  
LESS WEAR ON PARTS MEANS LONGER ENGINE LIFE

ASTM D4172. In 3rd party testing against 9 competitive products Polaris had 40% or better wear protection compared to all of the tested products. Numbers represent mm of wear scarring measured. Test measures wear at contact points, wear scar is measured for its length and width (in units of mm). Lower wear numbers mean better wear protection and friction reduction.

### DEPOSIT TEST

LOWER DEPOSITS = MAXIMUM POWER

ASTM D6335. In 3rd party testing against 9 competitive products Polaris PS-4 had less than half the deposits compared to the next closest product. No other tested products met Polaris Engineering standards for deposit cleanliness. Test measures mass of deposits in mg in high temp, high stress test cycles. Higher deposits will impact engine power and performance.

# THE AMERICAN POWERSPORTS CO.

At Polaris, we believe being an American company isn't a sales pitch; it's a way of doing business. It's the place we call home. The place our riders call home.

It all began here in America—over 70 years ago—in a small factory in Roseau, Minnesota. There, our founders forged a company built on American values, grit and ingenuity. That factory is not so small anymore and still operates to this day—creating jobs and producing the best our industry has to offer. The best America has to offer.

Today, we continue to design, engineer and test our industry-leading vehicles with owners like you—right here on American dirt, sand, snow and soil.
