# TOUGH DOESN'T QUIT

When you invent categories, your work is never finished. We're riders, relentlessly chasing the next ride. It's race-inspired performance that propelled our people to podiums at DAKAR and the Baja 1000, or a crew of relentless explorers who want to break free from the everyday and get deep into the backcountry. Tough doesn't stop when the light fades, tough doesn't settle for second place, and tough doesn't quit.

## DOMINATE WITH FACTORY RACE PARTS.

Speed and ride times are pushed to the max with RZR Factory Race Parts. These components are used and trusted by our record-breaking factory race team. They're intended to boost performance, durability and speed. These robust parts can enhance Polaris RZR's handling and overall performance under extreme conditions.

**ADAM ARSENAULT, TEAM MANAGER**  
 "The Race Front Carbon Propshaft is significantly lighter than the stock steel version, but it's just as strong with zero failures over 17,000 race miles on the Factory team."

**JOHNNY NELSON, CREW CHIEF**  
 "Thanks to the adjustable heim joint on the Race Toe Link, we can fine tune the alignment for better handling and increased performance."

Plow Extension (2880267) required for using a plow with tracks  
Only compatible with Pro Series Plow System

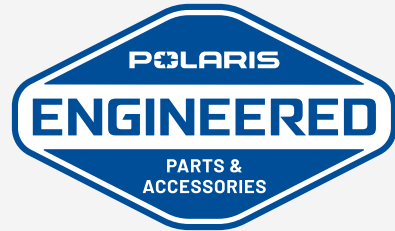

- INDUSTRY-FIRST FLEX-TRACK DESIGN**  
Front-mounted tracks with flexible sides and a slight inward curve allow for stable handling, a more comfortable ride and precise steering over long-distances or extended working hours.
- HIGH-DENSITY TIRE WITH ADJUSTED SHAPE**  
With puncture-proof tires that reduce friction and wear, the Prospector Pro 2.0 Tracks deliver trouble-free performance. Confidently take on bumps and obstacles with 8" high-density tracks.

Proven geometry to improve durability and deliver capability in all conditions throughout the life of the tracks. A lighter frame provides more flotation to stay on top of the snow and allows the tracks to easily shed the elements they encounter.
- TANDEM STABILIZER**  
The bolt-on, tandem mid-roller wheel provides a smoother ride by absorbing shocks.
- BEARING HOUSING**  
Outer seals and stainless steel sleeves allow stronger bearing durability and greater reliability.
- WHEEL CAP & SEAL**  
A fitted wheel cap with bladder effect eliminates water absorption due to temperature variation. Ride in snow or mud without worrying about track maintenance.

Retrieve cable 5x as fast as standard mode on other Polaris winches. Get back to riding or complete your task quicker.

1. Set winch dial to N (Neutral) to manually pull the rope out and secure the hook to your anchor point
2. Set winch dial to L (Low) for maximum pulling power while winching your load
3. Set winch dial to H (High) for retrieving the rope 5x faster with Rapid Rope Recovery

Auto Stop technology protects and extends the life of your winch by automatically stopping the winch at the end of pull to prevent over-spooling. While plowing, it prevents the plow frame from bending by stopping the winch once the plow has been lifted.

With its lightweight, yet extremely strong, design and superior flexibility, this 50 FT long synthetic rope is easy to handle and can stand up to any tough job.

This convenient remote operates your Polaris winch wirelessly from within 50 FT of the vehicle. Operate your winch safely outside your vehicle while on the job site or trails.

## HOLDS ICE FOR AGES

BECAUSE JUST ANY COOLER  
WON'T CUT IT OUT THERE.

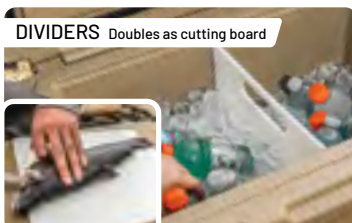

You need something rugged and reliable. A cooler purpose-built to handle the challenges of the off-road—while keeping your provisions on ice for days on end. Because out here, there are no ice machines, and you just left the last one in your dust. So, load it up. Lock it in. And know your NorthStar cooler is staying put—giving you a few extra days of ice time to enjoy the wild.

# TIRE SEALANT

24 X 7 COVERAGE | BE PREPARED FOR ANYTHING

## HOW IT WORKS

- 1 Tire sealant remains liquefied inside the tire until a leak develops in the tire or wheel.
- 2 Once a leak occurs, the tire sealant rushes out of the tire and quickly creates a permanent solid plug, maintaining tire pressure so you can continue your ride.

### HOW MUCH DO YOU NEED?

$$\text{TIRE HEIGHT (IN.)} \times \text{TIRE WIDTH (IN.)} / 5 = \text{OUNCES REQUIRED PER TIRE}$$

VISIT [POLARIS.COM/TIRESEALANTCHART](http://POLARIS.COM/TIRESEALANTCHART) TO LEARN MORE

## PREMIUM TIRE SEALANT

- Instantly seals and repairs rim, bead leaks and punctures up to .25" on standard tires and .75" on heavy ply tires
- Helps seal the tire bead against the wheel

- Creates permanent repair, helps maintain air pressure for the life of the tire
- 100% water soluble for easy cleanup

- Remains fluid and effective in temperatures down to -45° F
- Will not rust, corrode or pit wheels

- Easily installed through existing tire valve stem with valve core removed

# OIL & LUBRICANTS

Our PS-4 engine oils provide ultimate performance and protection, they're formulated with exclusive additives to keep engines clean from deposit buildup. These powersports-grade full synthetic oils helps maximize power and protect your engine for the long term.

## PS-4 FORMULATIONS BEST PROTECTION, BEST PERFORMANCE

### PS-4 5W-50 FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -40° F to 100° F.

10 Quart 2876244	1 Gallon 2876245	16 Gallons 2876247	55 Gallon Drum 2876246	330 Gallon Tote 2878814
---------------------	---------------------	-----------------------	---------------------------	----------------------------

### PS-4 0W-50 EXTREME FULL-SYNTHETIC OIL

Optimal for ambient operating temperatures of -45° F to 130° F.

10 Quart 2889395	1 Gallon 2889396	16 Gallons 2889397	55 Gallon Drum 2889398	330 Gallon Tote 2889399
---------------------	---------------------	-----------------------	---------------------------	----------------------------

### PS-4 EXTREME SYNTHETIC 0W-50

- Our best extreme high and low temp formula, excellent for high temperatures and racing, even at temps of 130°F, plus easier cold starting even below -45° F
- Expect the best in wear protection thanks to premium PAO and ester base stocks combined with a balance of moly and ZDDP additives
- Polaris exclusive clean engine additive system reduces deposits and carbon build-up for peak performance and power

### THE BEST PROTECTION, MAXIMUM PERFORMANCE

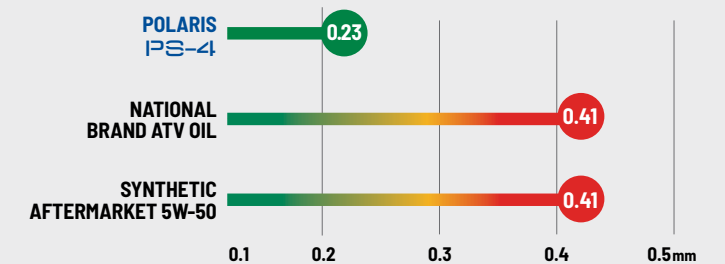

- Powersports grade full synthetics provide long lasting engine protection
- At least 40% improved wear protection compared to all aftermarket oils tested (see engine wear test chart)
- Polaris exclusive clean additive system
- At least 50% less deposits than all aftermarket oils tested (see deposit test chart)
- Cleaner engine with less deposits means consistent maximum power and performance

### WIDEST VISCOSITY FOR ULTIMATE PROTECTION

### ENGINE WEAR TEST

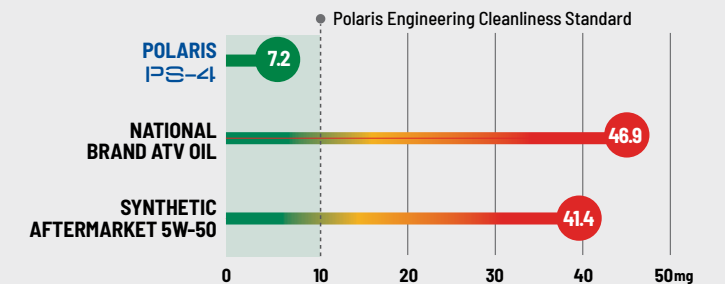

LOWER NUMBER = LESS ENGINE COMPONENT WEAR  
LESS WEAR ON PARTS MEANS LONGER ENGINE LIFE

ASTM D4172. In 3rd party testing against 9 competitive products Polaris had 40% or better wear protection compared to all of the tested products. Numbers represent mm of wear scarring measured. Test measures wear at contact points, wear scar is measured for its length and width (in units of mm). Lower wear numbers mean better wear protection and friction reduction.

### DEPOSIT TEST

LOWER DEPOSITS = MAXIMUM POWER

ASTM D6335. In 3rd party testing against 9 competitive products Polaris PS-4 had less than half the deposits compared to the next closest product. No other tested products met Polaris Engineering standards for deposit cleanliness. Test measures mass of deposits in mg in high temp, high stress test cycles. Higher deposits will impact engine power and performance.

# THE AMERICAN POWERSPORTS CO.

At Polaris, we believe being an American company isn't a sales pitch; it's a way of doing business. It's the place we call home. The place our riders call home.

It all began here in America—over 70 years ago—in a small factory in Roseau, Minnesota. There, our founders forged a company built on American values, grit and ingenuity. That factory is not so small anymore and still operates to this day—creating jobs and producing the best our industry has to offer. The best America has to offer.

Today, we continue to design, engineer and test our industry-leading vehicles with owners like you—right here on American dirt, sand, snow and soil.
