

AN ALL-NEW BREED OF LIGHT TACTICAL VEHICLE

MRZR ALPHA KEY FEATURES

TRANSPORTABLE

MRZR Alpha maintains internal air transport requirements and adds helicopter sling load capability—providing a new level of capability within the footprint of a V-22 transportable tactical vehicle.

PERFORMANCE-BASED

With a high performance 8-speed transmission, up to 2,000 lb payload capacity, a more durable chassis, and upgraded suspension, the MRZR Alpha can handle almost any terrain.

TRUSTED

Developed for U.S. Special operations command and light infantry units. The current Light Tactical All-Terrain Vehicle (LTATV) for SOCOM.
