ENGINEERED WITH MORE
INTEGRATION

Leaders never stop pushing for more. An unrelenting pursuit of innovation, performance and unyielding dependability defines RANGER® as the Hardest Working, Smoothest Riding,® utility vehicle in the world. Developed and tested along with the 2019 RANGER CREW XP® 1000, Polaris Engineered Accessories™ are designed for seamless integration and simple installation, so riders can leverage the full capabilities of the machine and maximize efficiencies to get more done, year-round.

DESIGNED

Only Polaris Engineered Accessories™ are conceived, designed and fabricated in lockstep with the Polaris RANGER® development process. As the vehicle progresses from concept to production, so do the accessories. This ensures a perfect fit and optimal performance.

TESTED

The Polaris® testing process is rigorous and unforgiving. We put vehicle and accessories through extreme conditions both in the lab and out in the field - in all environments and in locations spanning the continent. If it doesn't pass our standards, it's not ready for your Polaris® vehicle. This means only the best accessories make it to production.

TRUSTED

Developing the best, most premium accessories in the industry is our passion. Only Polaris® can combine decades of industry-leading experience, innovation and off-road expertise. You can have confidence in your Polaris Engineered Accessories™, because we know the lifestyle and live it every day.

POLARIS® PARTNERS WITH THE BEST

We choose our partners carefully, selecting only the best in off-road. Every accessory is rigorously tested and validated by Polaris® standards, to ensure seamless integration and performance.

THE TIGHTEST SEALING CAB

With the profile channels engineered into the roll cage, body plastics molded to seal and cab accessories designed to keep the elements out, the RANGER Pro Shield™ Cab System offers an industry-leading, 3x better dust seal than the competition. Look for  to identify Pro Shield™ Cab Components.

LOCK & RIDE

CARGO BOX VERSATILITY

Lock & Ride® mounting locations allow for limitless customization to let you work the way you want. Look for  to identify Lock & Ride® accessories.

PLUG & PLAY ELECTRICAL

A revolution in electrical accessory integration, the Polaris PULSE™ Electrical System allows for a simple plug & play approach for adding power to Polaris Engineered Accessories™. Look for  to identify Polaris PULSE™ ready accessories.

INTEGRATED WINCH

Designated mounting points and pre-wired contactors ensure a perfect fit and the strongest place to attach the Polaris Engineered™ winch - the most dependable winch for your RANGER®. With wiring built right into the vehicle, this is the easiest RANGER® winch ever made to install.

INTEGRATED PLOW MOUNT

The attachment points for the best-in-class Polaris Glacier® Plow System are integrated right at the factory and feature an innovative drive-up and go installation process.

RANGER ESSENTIALS

Customize your RANGER CREW® with exactly what you need to ride comfortably and get more done with the right tools for the job.

We set out to develop the best-performing, tightest-sealing cab on any utility Side x Side. Talk is cheap without proven results. Dust, water, noise - tested to military standards - all proved troublesome for the competition, but not for RANGER Pro Shield™. The results speak for themselves. Follow these steps to build your RANGER Pro Shield™ Cab System, and look for the logo.

1 ROOF

2 WINDSHIELD

3 REAR PANEL

4 DOORS

A FRAME DESIGNED FOR A CAB

All RANGER™ cab components fit perfectly to the contours of the RANGER CREW XP® 1000 profile tube cab frame, floor and body panels, allowing for a 360° gasket seal, seamless fit and installation providing unprecedented protection from the elements.

360° GASKET SEALS

Gaskets lining the perimeter of each RANGER Pro Shield™ cab component seal out drafts, dust and moisture from the interior.

LOCK & RIDE®

With exclusive Lock & Ride® easy-on, easy-off installation technology, add or remove cab components quickly and efficiently without tools.

3x BETTER DUST SEAL THAN THE COMPETITION

TESTED. PROVEN.

MIL-STD 810G 510.5 DUST TEST

MIL-STD 810G 506.5 RAIN TEST

WIND TUNNEL TEST

3x BETTER DUST SEAL

// RANGER PRO SHIELD™ VS. THE COMPETITION

HONDA® PIONEER® **5x** MORE DUST
CAN-AM® DEFENDER® **3x** MORE DUST

1.5x BETTER RAIN SEAL

// RANGER PRO SHIELD™ VS. THE COMPETITION

HONDA® PIONEER® **1.5x** MORE WATER
CAN-AM® DEFENDER® **2x** MORE WATER

2x BETTER NOISE REDUCTION

// RANGER PRO SHIELD™ VS. THE COMPETITION

HONDA® PIONEER® **3x** MORE NOISE
CAN-AM® DEFENDER® **2x** MORE NOISE

THE RANGER PRO SHIELD™ CAB SYSTEM DOMINATES THE COMPETITION

Only cab components with the RANGER Pro Shield™ nameplate assemble to provide the industry-leading best dust, water and noise reduction.

To shield against driving rain, swirling dust and the hot sun, the first must-haves are a Roof, Windshield and Rear Panel. Choose a poly roof, and a scratch-resistant glass or impact-resistant poly windshield and rear panel. You can then hit the trail or work site with confidence, protection and durability, in a clean and comfortable cab.

GLASS

TEMPERED SAFETY GLASS

For the ultimate in scratch resistance, tempered safety glass is the top choice. Optically, it is the clearest glass available, and because it is tempered, it's shatterproof.

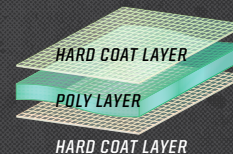

LOCK & RIDE

REVOLUTIONARY INSTALLATION

Every Lock & Ride® windshield utilizes a unique clamp that secures your windshield with the perfect amount of hold for rough conditions, yet still allows for easy, tool-less removal.

POLY

HARD COAT POLY

Poly windshields covered by hard coat provide **30x MORE** scratch resistance than standard poly windshields.

LOCK & RIDE

REVOLUTIONARY INSTALLATION

Every Lock & Ride® windshield utilizes a unique clamp that secures your windshield with the perfect amount of hold for rough conditions, yet still allows for easy, tool-less removal.

Get unmatched performance and the best seal with the RANGER Pro Shield™ Cab System door line. This is more than just another door. It offers premium features like high-quality latches that feel and stay secure, integrated storage, venting options, configuration for audio components and much more. Experience a new level of interior comfort.

OFF-ROAD GRADE AUDIO MBQUART®

BUILD YOUR SYSTEM

Research audio solutions for Polaris RANGER®, and you'll see manufacturers brag about audio equipment that's "Marine Grade", or worse yet, you'll discover repackaged components built for automotive applications. Polaris®, combined with MB Quart®, engineers off-road grade audio equipment that's proven in the harshest conditions. Rain, snow, mud, heat, cold, dust - any place your RANGER® excels, so will your audio.

*If RIGID® determines, in its sole discretion, that your product is defective in material or workmanship, RIGID® will honor your warranty claim. In some cases the product will be replaced, depending on the specific timeframe of the purchase. If the product is repaired, all parts, labor and return shipping may be covered by RIGID®.

RUGGED STYLING DURABLE CONSTRUCTION

Pro Armor® lights are designed to be big and beefy with an aggressive style all their own, and housed in IP67 marine-grade rated UV polyester powdercoating.

EXCLUSIVE OPTICS

Pro Armor® builds bright lights designed for any riding experience. All that power is directed through heat-dissipating aluminum for streamlined heat management.

ROCK/RACE

ATTACK THE TERRAIN

Sidewalls can be a vulnerable area of any off-road tire. Rocks and debris can tear into sidewalls. Thanks to the 3rd belt that's wrapped all the way down to the bead, you receive reinforced protection in this critical area, Pro Armor® resists when others fail.

PLOWS

GLACIER^{PRO} HD PLOW SYSTEM

HYDRAULIC CONTROL FOR EXTREME SNOW REMOVAL

A robust frame and tough blades, combined with the option to add hydraulic controls, allow your Glacier^{PRO} HD to move serious snow while you remain comfortable. Thanks to Lock & Ride[™] technology, the PRO HD comes standard with a convenient kickstand attachment to the plow frame, giving you the easiest attachment.

72" POLY BLADE
BEST FOR CORROSION RESISTANCE

72" STEEL BLADE
BEST FOR BIG JOBS YEAR AFTER YEAR

BLADE MATERIAL

Durable poly and steel blades are designed to push more. Choose a steel blade for longevity and increased rigidity or a lightweight non-stick, poly blade that's easier on plowing surfaces.

GLACIER^{HD} PLOW SYSTEM

MAKE QUICK WORK OF SMALLER JOBS

Move snow with the robust and capable Glacier^{HD} plow system, and discover why a major snowfall can be the highlight of your week. With a robust frame, beefy poly and steel blade options, convenient Lock & Ride[™] mounting and dismounting and amazing value, Glacier^{HD} is a great choice in the dead of winter.

POLARIS ENGINEERED[™] ADVANTAGES

LOCK & RIDE

EASY ON & OFF

With the integrated Lock & Ride[™] attachment points, you can easily drive up to the plow frame, attach and be plowing in moments.

SHEAR PIN PROTECTION

Engineered to protect your vehicle, shear pins act as a fail-safe point in the instance of accidental collision or over-exertion of the plow system.

ROBUST PLOW FRAME

Constructed of heavy-duty steel with e-coated rust protection, giving you a durable system you can rely on season after season.

CONVENIENT CONTROL

Lift and angle your blade right from the driver's seat with the addition of hydraulics on the Glacier^{PRO} HD Plow System.

- Polaris[®] exclusive optimized hub geometry minimizes feedback and eases steering effort.
- Flexible lug design provides the highest level of deep snow performance by lifting up in deep snow as opposed to digging down.
- Lightweight design with slight weight reduction over Camoplast[™] kit provides for better flotation, eases steering effort, and provides better vehicle control.

MAINTENANCE

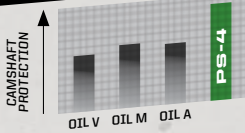

POLARIS® PS-4 VS. THE COMPETITION

ULTIMATE ENGINE PROTECTION

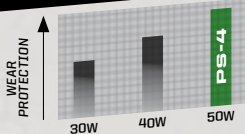

Our proprietary additives clean and protect critical engine parts under high operating temperatures.

33% MORE CAMSHAFT PROTECTION

When tested against competitive oils, camshaft bearing races and lobes exhibit less wear when protected by Polaris® PS-4 oil.

25% BETTER PROTECTION AT HIGH TEMPS

PS-4 delivers 25% stronger viscosity protection for gears, pistons, cams and bearings vs. 40wt. oils.

PS-4 FULL-SYNTHETIC OIL PART

Optimal for ambient operating temperatures of -40° F to 100° F

1 qt.	2876244
1 gal.	2876245

PS-4 EXTREME-DUTY FULL-SYNTHETIC OIL PART

Optimal for ambient operating temperatures of 0° F to 130° F

1 qt.	2878920
1 gal.	2878919

PERFORMANCE PART

Includes: 1.5 qts. AGL, 1 qt. Angle Drive Fluid, 1 pint Demand Drive Fluid, 1-3 oz. tube of All-Season Grease

Drive Belt	3211186

POLARIS ENGINEERED™ BELTS TESTED, PERFECTED

Maintenance is the key to keeping your vehicle at its peak. Items like belts, lubricants and batteries are only a few critical items engineered specifically by Polaris!

OUR INVESTMENT

- 20,000+ miles of field testing
- Thousands of dyno hour testing
- 18+ months of development (3000+ design hours) per belt
- 1200+ vehicle validation hours
- Collaboration with powertrain and clutch engineers

YOUR ADVANTAGE

- Less wear and tear due to heat
- Ensure maximum performance of your vehicle
- More time out riding, less time wrenching

TIRE SEALANT

HOW IT WORKS

Tire sealant remains liquefied inside your tire until a leak develops in the tire or wheel.

Once a leak occurs, the tire sealant rushes out of the tire and quickly creates a permanent, solid plug.

The permanent solid plug maintains the pressure of the tire so you can continue your ride.
