ENGINEERED FOR MORE

HARDEST WORKING, SMOOTHEST RIDING.

RANGER is a trusted, most capable, work partner. Developed and tested along with the vehicle, Polaris Engineered Accessories are designed for seamless integration and simple installation to get more done, year-round.

SUPERIOR INTEGRATION

PLUG AND PLAY ELECTRICAL A revolution in electrical accessory integration, the

Polaris PULSE Electrical System allows for a simple plug and play approach for adding power to Polaris Engineered Accessories.

RANGER XP 1000/1000 P.28 RANGER SP 570 P.75

INTEGRATED WINCH MOUNT & PRE-WIRED

Designated mounting points and pre-wired contactors ensure a perfect fit and the strongest place to attach the Polaris Engineered winch - the most dependable winch for your RANGER. With wiring built right into the vehicle, we made this the easiest RANGER winch ever to install.

INTEGRATED PLOW MOUNT^{*}

The attachment points for the Glacier Plow System are integrated right at the factory and feature an innovative drive-up and go installation process.

*Integrated Plow Mount not included on RANGER SP 570 Non-Premium/Non-NorthStar Model

NEXT-LEVEL COMFORT

OUR BEST SEALING CAB

With the profile channels engineered into the roll cage, body plastics molded to seal and cab accessories designed to keep the elements out, the RANGER Pro Shield Cab System offers a new level of interior comfort.

ULTIMATE CLARITY

Tempered safety glass, clear to see through and shatterproof.

COLOR MATCHED

Key color matched accent panels available.

PROTECTION

Inner and outer shells are made from high-quality, injection-molded plastics using a state-of the art process to shield from the elements and more.

DURABLE CONSTRUCTION

With a 1" tube steel frame, these doors can handle the rigors of the off-road.

All RANGER cab components fit perfectly to the contours of the profile tube cab frame, floor and body panels, allowing for a 360° gasket seal, seamless fit and installation providing unprecedented protection from the elements.

RANGER

INCREASED **RIDER COMFORT**

Add a new level of interior comfort by adding a RANGER Pro Shield Cab System - tested to military standards. Seal out dust, water, and noise by selecting a roof, windshield, rear panel, and set of doors. Extend your work day or trail ride while protecting you and your passengers from the elements.

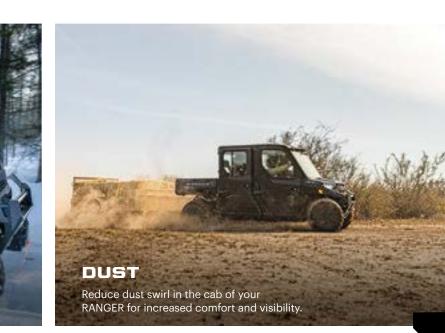

Rest assured that you and your passengers will stay dry and comfortable on rainy days.

SNOW Keep cold wind and snow out in winter months.

PRO PRO HEAVY DUTY SERIES **TOP-OF-THE-LINE FEATURES** BEST FOR PLOWING, HEAVY-DUTY OUTDOOR CHORES & TRAIL RIDING

RIES

PRO PRO HEAVY DUTY SEE

Retrieve cable 5x as fast as standard mode on other Polaris winches. Get back to riding or complete your task quicker. Set winch dial to N (Neutral) to manually pull the rope out and secure the hook to your anchor point
 Set winch dial to L (Low) for maximum pulling power while winching your load
 Set winch dial to H (High) for retrieving the rope 5x faster with Rapid Rope Recovery

Auto Stop technology protects and extends the life of your winch by automatically stopping the winch at the end of pull to prevent over-spooling. While plowing, it prevents the plow frame from bending by stopping the winch once the plow has been lifted

With its lightweight, yet extremely strong, design and superior flexibility, this 50 ft long synthetic rope is easy to handle and can stand up to any tough job.

LOCK & RIDE Easy On & Off

Room for Ice Fishing Gear

INNER LINING The full thermal quilted inner shell provides higher lofting while locking in heat and virtually eliminating condensation

"The full-thermal Otter" Ice House from Polaris sets up in minutes, is spacious enough for two anglers to fish in comfort and stows quickly on the back of your RANGER. It is the premium shelter solution for ice anglers that rely on their Polaris RANGER for mobility out on the ice." James Holst, InDepth Outdoors

REAR 27" TIRE CHAINS

THE RIGHT TIRES

FOR WORK. Pro Armor Utility Tires are built to provide exactly what you need for your application. Looking for a high-mileage work horse? We've got it. How about a turf-friendly tire with low-impact? We've got those too. Wanting the most extreme puncture resistance? Check.

"We use our RANGER every day around the farm. We put the Pro Armor HARVESTER Tires on last fall and love them! We have received better traction as well as gentler and quieter ride compared to the stock tires, whether around the yard or out to the fields. They are so gentle on the lawn; we don't worry about driving the kids anywhere around the farm. We've had them on for a year and can't even see wear and tear. These are the best tires for my RANGER."

Bob S. - Barron, Wisconsin

FOR THE LIFE OF YOUR RIDE

PARTS THAT PUSH THE LIMITS WITHOUT SACRIFICING STRENGTH AND DURABILITY.

We build our products so anyone with the right tools can maintain their vehicle.

MAINTENANCE TIP

BREAK-IN PERIOD

The break-in period for your new RANGER is the first 25 hours of operation, or the time it takes to use the first two tanks of fuel. No single action on your part is as important as a proper break-in period. Careful treatment of a new engine will result in more efficient performance and longer life for the engine.

NOTICE: Excessive heat build-up during the first three hours of operation will damage close-fitted engine parts. Do not operate at full throttle or high speeds for extended periods during the first three hours of use.

SEE OUR LATEST MAINTENANCE TIPS AT RANGER.POLARIS.COM/EN-US/SELF-HELP

AIR FILTER

A clogged air filter can restrict air flow to the engine leading to reduced engine performance, engine life or catastrophic failure.

BRAKE PADS

Maintaining and/or replacing brakes are critical to the safety and functionally of a vehicle. Brake pads should be checked for wear and oil or grease (petroleum products) contamination and brake discs should be checked for cracks, excessive corrosion or warping.

HALF SHAFT

Check for tears and punctures in the boot, which can lead to CV joint wear that can contribute to axle failure.

BATTERY

To ensure a battery maintains its level of charge when unused for extended periods of time or during freezing weather, the battery should be connected to a BatteryMINDer (see P. 98). Be sure to check for corrosion from the terminals to the ends of the cables.

DRIVE BELT

Polaris Engineered belts deliver unmatched performance for your off-road vehicle. Developed and tested on all our engines for all environments and conditions. Check your belt for delamination, hour alassing and alazing

BREAK-TN DERTOD

- · Use lower gear (if available) while varying speeds and avoid wide open throttle for 5-10 miles
- If no low gear is available, vary at moderate speeds while avoiding wide open throttle for 50 miles

OUR INVESTMENT

- 40,000+ miles of field testing
- Thousands of dyno hours
- 18+ months of development (13,000+ design hours) per belt
- 1.500+ vehicle validation hours
- Collaboration with powertrain and clutch engineers
- YOUR ADVANTAGE
- No clutch recalibration
- Less wear and tear due to heat
- · Ensure maximum vehicle performance
- More time riding, less time wrenching
- Produced in collaboration with powertrain and clutch engineers to ensure a perfect fit. maximum performance and ultimate durability

OIL FILTER

Change oil filters with every oil change to provide the best engine protection and keep the engine operating at peak performance.

products we sell, for ultimate protection and

performance in the most extreme conditions.

THE BEST PROTECTION

• At least 40% improved wear protection compared to previous Polaris PS-4 formulation and all aftermarket oils tested

Best engine protection against wear for the longest engine life.

PERFORMANCE

MAXIMUM

- New improved PS-4 formulation provides 33% less deposits than previous PS-4 formula
- At least 50% less deposits than all aftermarket oils tested
- The cleanest engine for maximum power and performance!

- Our best extreme high temp formulation, excellent for severe high temperatures and for racing, even at temps over 130°F.
- Provides easier starting and cold temperature protection, even to extreme cold temps of below -45°F.
- Latest in premium synthetic PAO and Ester base stocks along with careful balance of moly and ZDDP additives for ultimate long lasting wear protection.
- Polaris exclusive clean engine additive system reduces deposits and carbon build-up for peak performance and power.

BatteryMINDer®

ENSURE YOUR RIDE IS READY WHEN YOU ARE.

GARAGE ACCESSORIES

- Add years of capacity, power and range to new and older batteries, regardless of type or brand
- Never over- or under-charged in any temperature
- Leave your vehicle connected for months and return to fully charged and conditioned batteries
- · Recover older or weak batteries that would normally need to be replaced
- Charge and maintain extra backup batteries, as well as those in your vehicle
- · Automatic turn-on, sleeps while keeping your batteries at full charge
- · Easy push-button selector to change battery type or time

BATTFRY

All Polaris parts are developed and tested to help you get the most out of your ride. We're taking the passion of our riders, workers and outdoor enthusiasts to the next level with HD Parts.

Engineered and designed for:

- Greater durability
- Enhanced performance
- Greater wear and tear capabilities
- All weather conditions

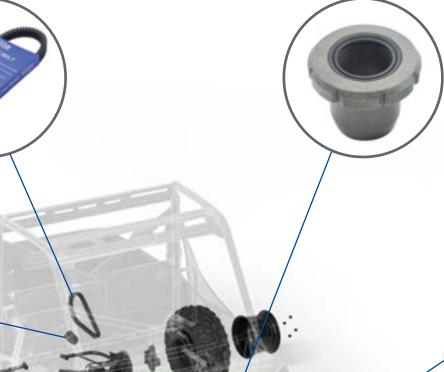

NEW

DRIVE BELTS

The enhanced rubber material compound in these belts keep them cool in extreme heat, while our patented cord treatment process maximizes the transfer of horsepower to the ground for those customers hauling heavy loads.

The advanced synthetic material built into these filters offers the highest debris holding capacity, maintains oil flow and maximizes performance.

HOW TO INSTALL

Remove wheel and axle nut.

HOW IT WORKS

HOW MUCH TIRE SEALANT

DO YOU NEED?

27" × 10" / 5 = 54 oz

FOR A FULL APPLICATION CHART, VISIT

POLARIS.COM/TIRESEALANTCHART

OUNCES

REOUIRED

PER TIRE

Tire sealant remains liquefied inside the tire until a leak develops in the tire or wheel.

TIRE

(IN.)

The plug maintains the pressure of the tire so you can continue your ride.

PREMIUM TIRE SEALANT

- Instantly seals and repairs rim, bead leaks and punctures up to .25" or standard tires and .75" on heavy ply tires
- Helps maintain air pressure for the life of the tire
- Helps seal the tire bead against the wheel
- 100% water soluble for easy cleanup
- Will not rust, corrode or pit wheels
- Creates permanent repair
- Remains fluid and effective in temperatures down to -45° F
- · Easily installed through existing tire valve stem with valve core removed
