- Safety Glasses
- Pliers, Push Pin Rivet
- Socket Set, Hex Bit, Metric
- Socket Set, Torx® Bit
- Torque Wrench

IMPORTANT

Your Accessory Power Switch is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

VEHICLE PREPARATION

GENERAL

1. Park vehicle on a flat surface.
2. Shift vehicle to NEUTRAL.
3. Press START/STOP button to turn vehicle OFF.
4. Apply parking brake.
5. Remove key fob from proximity of vehicle.

OPEN HOOD

WARNING

Do not grab plastic directly above the hood release lever to open the hood. This may damage the hood.

1. Make sure parking brake is applied.
2. Pull hood release lever upward to disengage four hood latches.

3. Pull upwards on hood underside, above LED lamp, using two hands.

4. Pull hood upward and forward, rotating hood to a vertical position.

REMOVE MIRRORS

1. Remove and keep two mirror mounting screws.

2. Remove and carefully set aside mirror assembly.
3. Repeat for opposite side mirror.

REMOVE WINDSHIELD

NOTICE

Windshields vary in size and shape but all mount to the same mounting points.

1. Remove and keep three fasteners (A) from base of windshield (B).

2. If equipped, remove and keep screw, washer and O-ring from center windshield mount.

3. Remove windshield and carefully set aside.

REMOVE UPPER DASH

REMOVE UPPER DASH PAINTED PANELS (IF EQUIPPED)

1. Remove and keep upper dash painted panels by lifting from front edges to release clips.

REMOVE SIDE TRIM PANELS

NOTICE

Left side shown; right side similar.

1. Remove and keep two screws (A) and two push-pin rivets (B) from side trim panel (C).

2. Remove side trim panel (C) and carefully set aside.

REMOVE UPPER DASH PANEL

1. Remove and keep eight screws (A) from upper dash panel.

2. If equipped, disconnect dash tweeter speakers from main vehicle harness.
3. Lift front edge of upper dash panel to release clips. Lift off upper dash panel and carefully set aside.

CENTER CONSOLE AND DISPLAY REMOVAL

1. Remove and keep two push pins from center console trim.

2. Remove center console trim .

3. Remove and keep two display center fasteners. Move display center away from mounting position and disconnect wiring. Remove display center.

4. Press tabs on back of switch panel to remove switch bezel. Remove switch retainer.

ACCESSORY INSTALLATION

1. Remove switch blank in far right position.

2. Install accessory power switch ② in far right position.

NOTICE

Make sure switch is installed with symbol facing up.

3. Attach connector **10F** on accessory power switch ②.

4. Route accessory power harness ③ along existing wiring through firewall and under coolant overflow reservoir as shown. Attach with cable ties ③ at white tape marks.

5. Connect **2M** to vehicle power.

6. Attach fuse holder and vehicle power connection to vehicle as shown.

VEHICLE REASSEMBLY
