Items marked (\*) are included in Hardware Kit PN 2205981.

#### **TOOLS REQUIRED**

- · Safety Glasses
- Torx® Driver Set

- Drill
- Drill Bit, 5/16 inch

#### **IMPORTANT**

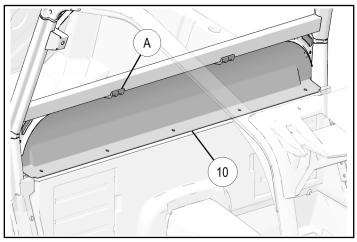

Your GLASS REAR PANEL KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

### **ASSEMBLY TIME**

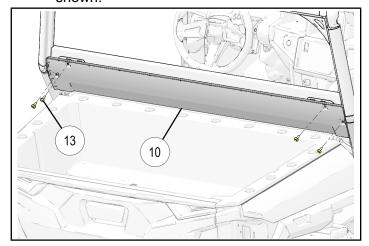

Approximately 10 minutes

#### INSTALLATION INSTRUCTIONS

- 1. Place vehicle in "PARK". Turn key to "OFF" position and remove from vehicle.
- 2. Install Lower Panel
  - a. Install lower panel (10) by engaging upper brackets (A) on lower ROPS as shown.

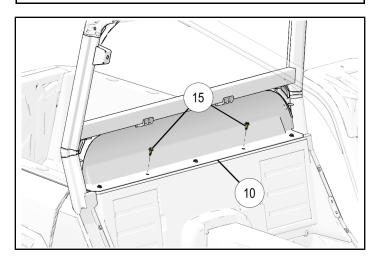

b. Pivot lower panel (10) into ROPS, then install four screws (13) through panel into ROPS as shown.

c. Using lower panel (1) as template, drill five 5/16 inch holes through upper rear close off panel. Install five plastic push rivets (1) through lower panel (1) and upper rear close off panel as shown.

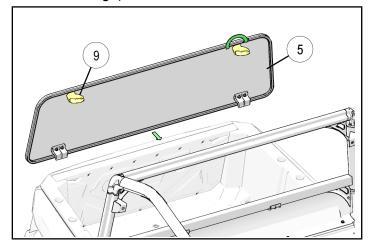

## **IMPORTANT**

Control drill depth to prevent damage to underlying structure or components.

#### 3. Install Upper Panel

a. Turn two handles (9) on upper panel (5) so they are in unlocked position (parallel with upper roof edge) as shown.

b. Install upper panel ⑤ by engaging lower brackets ⑥ on lower ROPS as shown. Pivot panel into ROPS, then turn handles ⑨ to locked position (perpendicular to upper roof edge) as shown.

### **NOTE**

Tighten bolts ① as required to achieve desired level of handle resistance.
