10 mins

IMPORTANT

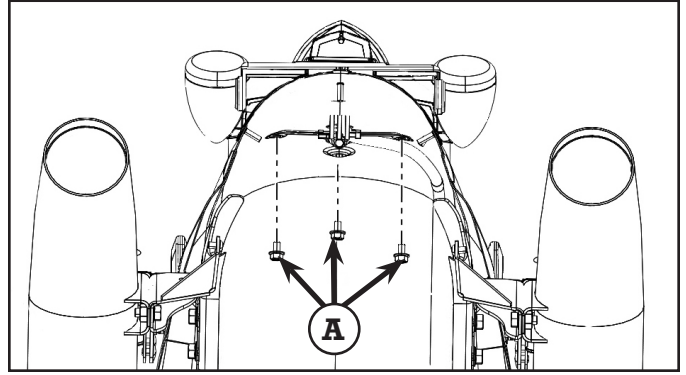

Your Indian REAR LIGHTING KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

Removal

Place the motorcycle in an upright position with the front wheel clamped in a wheel vise.

1. Working from beneath the rear fender, access the three tail light screws (A) and remove. See figure.
2. Lift the tail light assembly (B) off of the rear fender (C) and disconnect the electrical connectors (D) noting their position for reassembly as shown in Installation Steps associated figure.
3. Remove the tail light assembly from the license plate holder.

Installation

1. Attach license plate assembly reversing the removal procedure. Torque to 15 in-lbs. (1.7 Nm).
2. Reconnect electrical connectors (D) as shown in figure.
3. Reattached housing (B) to fender (C). Torque to 84 in-lbs (9.5 Nm).
