

Photo of part connector for 2882212 with documentation also posted in “Notes”

Accessory audio kit '2882212 – K-AUDIO,SADDLEBAG SPKRS' includes front harness 2413057. There are 3 revs of harness 2413057 currently in circulation but only REV03 works for all HW Indian models, including MY17. The connector alignment tab (shown below) was removed in revision 3 to accommodate all applicable model years. Dealerships that stock audio kit 2882212 likely have earlier versions. If a dealer is installing an earlier version of this kit on a MY17 Indian, it will be necessary to clip off the alignment tab using a side-cutter (or other suitable tool) prior to connecting.
