INSTALLATION INSTRUCTIONS

HARDWARE INSTALLATION

- 1. Ensure motorcycle is parked on a flat surface, kickstand is fully extended, and vehicle is stable prior to installation.
- 2. Raise windshield to highest position.
- 3. Turn key or ignition switch to "OFF" position and remove key. If equipped with keyless fob, remove fob from proximity of vehicle.
- 4. Remove and retain two screws (A)from fairing bezel (B).

5. Remove fairing bezel ^(B) by gently pulling out from top.

6. Loosen (**Do NOT remove**) farthest right dashboard screw (C) below windshield for access.

\Lambda WARNING

Isopropyl alcohol is hazardous to your health. See isopropyl alcohol packaging for proper handling instructions, including recommended personal protective equipment such as goggles and chemical resistant gloves. 8. Peel backing paper from GPS Antenna ① and install onto bracket ^(D) as shown. Press firmly in place to set adhesive.

9. Remove zip tie holding GPS Antenna Connector
(E) in place and plug GPS Antenna Connector (E) into GPS Antenna (1).

10. Tighten dashboard screw C (Loosened in step6) to specification.

- 11. Reinstall headlight bezel (B). Tighten screws (A) to specification.
 - TORQUE 36 in. lbs. (4 Nm)
