KIT CONTENTS

Ref	Qty	Part Description	Part Number
1	1	Trunk Organizer	2686189
	1	Instructions	9925246

APPROXIMATE ASSEMBLY TIME

5 min

IMPORTANT

Your Polaris TRUNK ORGANIZER KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

NOTE: “Indian” script logo (A) will be correctly oriented for reading from the rear of the vehicle once assembled.

1. Remove organizer from packaging.
2. Stand behind vehicle with the trunk lid open.
3. Hold the organizer by outside top edges, with the pockets (B) and logo facing towards the front of the bike (away from you).
4. Place U shaped opening (C) over the bump in the center of the carpet on the back wall of the trunk (closest to you), and lower it until it is resting on the carpet hump.

5. Then evenly smooth the top portion over the carpet.
6. Finally, stretch the sides of the organizer (1) to the side walls of the trunk and push the hook portion onto the carpet, leaving enough room for flashlight or tire pressure stick gauges to fit between carpet and organizer in the provided loops.

CAUTION: Organizer (1) attaches directly to the carpet liner in the trunk by hook tape. This can damage carpet with repeated installation and removal, so it is best to carefully place it where desired and leave it there.
