| | 1 | Instructions | 9929264 |

TOOLS REQUIRED

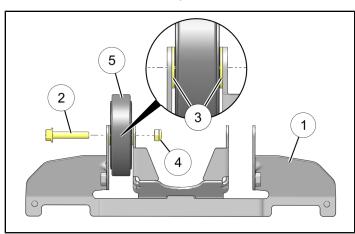

- Safety Glasses
- · Socket Set, Metric
- Wrench Set, Metric

IMPORTANT

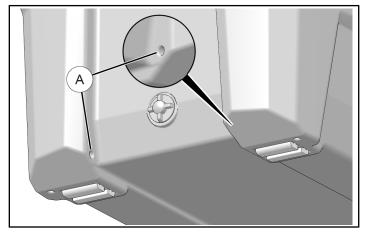

Your 105 Quart Cooler Wheels Kit is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

INSTALLATION INSTRUCTIONS

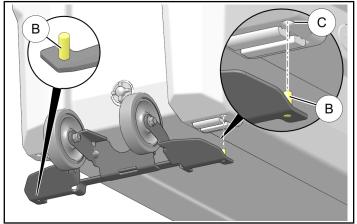

- Install wheel (5) to frame (1) using one screw (2), two washers (3), and one nut (4). Ensure the following:
 - One washer is located on each side of wheel, between wheel and frame, as shown
 - Screw is oriented with head on OUTSIDE of frame/wheel assembly

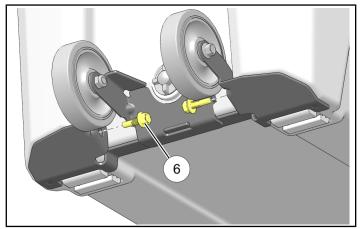

2. Observe location of two holes (A) for use in Step 4.

3. Install frame/wheel assembly to DRAIN end of cooler by fully inserting two pins [®] into mating holes [©] on bottom of cooler.

4. Install two locking screws (6) through sides of frame/wheel assembly into mating holes (A) on cooler. See Step 2.

FEEDBACK FORM

A feedback form has been created for the installer to provide any comments, questions or concerns about the installation instructions. The form is viewable on mobile devices by scanning the QR code or by clicking **HERE** if viewing on a PC.
