- Drill
- Drill Bit; 5/16 inch

IMPORTANT

Your SWITCH PANEL KIT is exclusively designed for your vehicle. Please read the installation instructions thoroughly before beginning. Installation is easier if the vehicle is clean and free of debris. For your safety, and to ensure a satisfactory installation, perform all installation steps correctly in the sequence shown.

ASSEMBLY TIME

Approximately 10 minutes

INSTALLATION INSTRUCTIONS

1. Shift vehicle transmission into "PARK". Turn key to "OFF" position and remove from vehicle.
2. Position switch panel ① as shown, then using panel as template mark and drill four 5/16 inch holes into lower dash panel.
3. Install accessory switches to panel, removing switch covers ③ as required (accessories sold separately).
4. Install switch panel ① to lower dash panel using four plastic push rivets ② as shown.

IMPORTANT

Control drill depth to prevent damage to underlying structure or components.
