ROCK SLIDERS INSTALL - RZR XP 1000/2015+ 900S (P41221)

Note: For further information on installation instructions please visit our website www.proarmor.com

Begin by removing any dirt/obstructions that may interfere with the installation of the rock slider. Make sure all of the mounting holes and surfaces are clear.

- A. Assemble the supplied expansion anchors with the rock slider as shown above. (3) for each rock slider.
- B. Insert the bolt, washer, and sleeve into the mounting hole first. The flat surfaces of the sleeve of the expansion anchor should fit into the groove in the mounting hole of the rock slider.
- C. Thread the nut on the back side, against the fingers of the sleeve. The flat surfaces of the nut should fit into the groove in the sleeve and create a snug fit.

DO NOT OVER-TIGHTEN WHILE THREADING IN THIS STEP. YOU DO NOT WANT THE WINGS OF SLEEVE TO EXPAND.

Make sure the expansion anchors are flush with no gap.

Make sure the expansion anchors are flush with no gap.

ROCK SLIDERS INSTALL - RZR XP 1000/2015+ 900S (P41221)

Pressure to keep in place to keep proper placement

2

Once you have all (3) anchors in the chassis holes, maintain pressure and tighten down until snug. Do not stop tightening so anchor remains in place.

Keep the rock slider snug up against the plastic as you go around and evenly torque down the three anchors. DO NOT OVERTIGHTEN as you may shear the bolt in the expansion anchor.

PRO ARMOR

EVERY RIDE HAS A STORY

ROCK SLIDERS INSTALL - RZR XP 1000/2015+ 900S (P41221)

Insert (3) Rubber plugs as shown.

Repeat steps for other side. Installation is now complete.
