

XP4 ASYLUM ROOF (P144R120) INSTALLATION INSTRUCTIONS

- 1) Remove contents from the package and attach front and rear sections of the roof using M6 x 10mm bolts and Acorn Hex Nuts.
- 2) Use the supplied tube clamp bracket and wrap it around the roll cage tube and loosely secure the M6 bolt through the roof panel and thread it into the clamp (fig.1). Now repeat this process for all 6 full clamps and 4 half clamps (fig.2-3) and make sure they are loosely secured and not fully tightened yet.
- 3) After all clamps are in place, add rubber edge trim to both sides from front to back. (fig.4-5)
- 4) Adjust the roof so the front edge runs parallel to the front top cage tube. The roof will cover approximately half of the roll cage front top tube. Once you have achieved proper fitment secure all hardware with a #4 Allen key and make sure all bolts are fully tightened. (fig.6)
- 5) Vibration pads have been included. (Item 5) Place between roof and roll cage as necessary Use as needed to eliminate any vibrations.

ITEM NO.	PART NUMBER	DESCRIPTION	QTY.
1	P141295-07	FULL CLAMP SUBASSEMBLY	6
2	5258479	CLAMP-ROOF, RZN4, BLK	4
