THE LINEUP

NEW FOR 2025

AN EXPERIENCE LIKE NO OTHER
Slingshot represents the ultimate expression of individuality and brings an element of fun and thrill every time you get behind the wheel.

ALL-NEW FRONT END STYLING

For 2025, Slingshot has a completely redesigned front end, putting style front and center for every model. As you move up the lineup, the style and fascia components develop to enhance the unparalleled designs of Slingshot.

For SL models, graphics are added to the textured front end to add a sportier feel while maintaining a clean look.

For SLR models, painted outer winglets, lower accent lights, and textured closeouts are added to better highlight the model's stand out style.

For R models, the front end gets the full style treatment. The front is fully painted and adds a lower splitter, complementing the edgy style of the Vented Sport Hood for a totally new, unique look.

IMPROVED DRIVABILITY

Under the hood enhancements give the 2025 lineup a sportier driving experience, a bump in horsepower, and a broader torque curve for a more visceral acceleration behind the wheel.
