ELEVATE YOUR RIDE WITH EXCLUSIVE TECH54 RIDING GEAR DESIGNED TO KEEP YOU WARM AND DRY.

To us, winter is more than just another season. It’s when the landscape is frozen by an icy grip and snow transforms terrain into an endless playground. Like you, we savor every minute, which is why our Apparel Center of Excellence developed TECH54—a waterproof, breathable membrane featured in every Polaris jacket, bib and monosuit. This exclusive technology allows perspiration to escape and keeps water out, so no matter how you ride, or where you ride, you stay dry, warm and comfortable.

- Choose your TECH54 rating based on the weather conditions and your level of exertion
  - Choose 5K/5K for colder & drier conditions and moderate activity
  - Choose 10K/10K for extremely wet riding conditions and high-activity riding
- Heat and sweat escape
- Water stays out
- Tailored for how you ride
- Stay dry, warm and comfortable

DIVE DEEPER INTO TECH54 AT POLARIS.COM/TECH54
**MEN’S MOUNTAIN GEAR**

**TECH54**

**PRO MONOSUIT**

Our most evolved one-piece with maximum breathability, waterproofness, increased range of motion with customized fit and plenty of pockets.

- Durable 300 denier poly shell is tear- and snag-resistant and treated with superior DWR to shed snow and water from the outer shell.
- Features TECH54 bonded internal laminate with 10k/10k properties.
- One-piece construction ensures powder stays on the outside.
- 3M® Scotchlite® Reflective Material for nighttime visibility.
- Provides room for a mid-layer for added warmth against the cold.
- Increased storage including four external pockets (two hand, one chest, one thigh).

**OUR MOST EVOLVED ONE-PIECE WITH MAXIMUM BREATHABILITY, WATERPROOFNESS, INCREASED RANGE OF MOTION WITH CUSTOMIZED FIT AND PLENTY OF POCKETS**

HELMETS

Whether you’re ascending deep mountain powder or enjoying a perfectly groomed trail, 509 for Polaris has a helmet to fit your riding passion.

The all-new 509 Delta R4 delivers exceptional fog-free vision with the Ignite dual-pane heated shield, maximum field of view with the extended-frame face shield and ultimate convenience with glove-friendly controls.

Ride in complete confidence knowing you can tackle any situation with the all-in-one 509 Delta R3 with the versatility of dual-sport, full-face or open-face configurations.

Push boundaries with the strong, lightweight construction of hand-lay carbon fiber or composites with the draft-free seal of 509 goggles.

CHOOSE YOUR 509 HELMET

The new lineup of 509 helmets for Polaris features Fidlock® technology, an easy-on and easy-off magnetic closure device that delivers a quick, secure closure every time.

EASY ONE-HAND OPENING

EVEN WITH GLOVES

**RIDE SAFELY**

Today so you can ride safely tomorrow.

Polaris is proud to partner with PIEPS®, the world’s foremost authority in avalanche airbag safety equipment. Designed with riders in mind, Polaris & PIEPS® have created JETFORCE™ in 35L, the absolute best in avalanche airbag, beacon, probe and related safety technologies. Ride with confidence knowing you have state-of-the-art equipment and the skills to face a backcountry emergency.

**PIEPS® JETFORCE BT**

**ADVANCED LIGHTWEIGHT PERFORMANCE LOADED WITH TECHNOLOGY**

The pinnacle in avalanche airbag technology. Smartphone update and Bluetooth® connectivity, automatic airbag deflation and modular booster system adapt to your riding needs.

- Digital, lithium-ion powered turbine fan system allows for practice deployments at home
- Rapid and conveniently rechargeable with micro-USB
- Integrated with diagnostic lights inform when pack is ready or requires charging
- Deployment handle can be located on the left or right for rider preference control
- Available in 10L, 25L, and 35L capacities for riding essentials
- Adjustable hip belt and leg loop ensure pack stays secure while riding

Jetforce BT Exclusive Extras

- Automatic deflation sequence creates an air pocket under the snow
- Smartphone software with Bluetooth® connectivity and PIEPS® app
- Comfortable pack’s capacity with interchangeable booster in 10L, 25L or 35L (sold separately)

Easy access safety pocket for shovel blade, handle and probe

RIDER SAFETY

PIEPS’ JETFORCE SC ▶ TOP SELLER

BEST-SELLING PERFORMANCE WITH SUPERCAPACITOR SYSTEM

Featuring Alpride E1, the newest in supercapacitor airbag technology. Cartridge-free system is compact, easy to use and charges in under 60 minutes—even while riding.

- Supercapacitor powered fan system allows for convenient practice deployments
- Quickly and conveniently recharge with micro-USB or AA batteries
- Self-diagnostic lights inform when pack is ready or requires charging
- Deployment handle can be located on the left or right for rider preference control
- Easy access safety pocket for shovel blade, handle and probe
- Convenient 3D internal compartment holds riding essentials
- Adjustable hip belt and leg loop ensure packs stay secure while riding

JETFORCE UL REPLACEMENT CARTRIDGES

- Combined cartridge weight: 440g
- Lighter than canisters
- Includes one CO2 and one argon cartridge

PIEPS’ JETFORCE UL

ULTRA-LIGHTWEIGHT CARTRIDGE PERFORMANCE SYSTEM

Ride unrestricted with one of the industry’s lightest avalanche airbag packs featuring the innovative Alpride 2.0 lightweight cartridge system.

- Effective in order five seconds with the compressed charge of argon and CO2 gas
- Sealed cartridge design delivers improved reliability over cartridge-based designs
- Deployment handle can be located on the left or right for rider preference control
- Easy access safety pocket for shovel blade, handle and probe
- Convenient 3D internal compartment holds riding essentials
- Adjustable hip belt and leg loop ensure packs stay secure while riding

PIEPS’ MICRO SENSOR BT

The smallest and lightest beacon available. The sensor will automatically switch the beacon to Search Mode when removed from its harness or pocket, saving valuable time during a rescue. Supports PIEPS’ APP connectivity.

- Dimensions (L x W x H): 130 x 75 x 25mm
- Weight: 220g

PIEPS’ POWDER BT

High-performance circular searching range, 300-hour battery life and PIEPS’ APP connectivity.

- Dimensions (L x W x H): 130 x 75 x 25mm
- Weight: 240g

PIEPS’ PRO BT

Optimizes circular searching range, 800-hour battery life and PIEPS’ APP connectivity designed for all mountain pros.

- Dimensions (L x W x H): 130 x 75 x 25mm
- Weight: 260g

PIEPS’ PROBE BT

Optical and acoustic signal indicates an electronic “hit” within 5 ft diameter to eliminate near misses and false strikes when probing, saving valuable time during a rescue.

- Dimensions (L x W x H): 130 x 75 x 25mm
- Weight: 220g

PIEPS’ SHOVEL T 825 PRO+ WITH SAW BLADE

- Blade dimensions: 30.0 x 24.8 x 1.0
- Total weight: 1.45kg
- Handle length: 100cm

When the snow falls, nothing can keep you from the ride. Whether you’re riding for a day, a weekend or a week, be ready for anything with the right Polaris accessories and apparel. From additional storage options, heated seats, bumper protection, gauntlets and windshields, you’ll be ready for wherever the next horizon lies with additional warmth, comfort and style.
Ignite your passion for winter’s adrenaline rush. Make the most of every ride with the new easy-to-use Lock & Ride Flex storage and passenger seating. No matter who’s riding, or what the day brings, your sled can do it all thanks to the versatility and flexibility of Polaris Engineered Accessories and Apparel. Because when the snow falls, it’s time to ride.
The fun never ends.

On the job or on the throttle, there’s more ways you can enhance your ride with Polaris Engineered Accessories and Apparel. Whether you want to add passengers, haul more gear or be prepared for anything with a winch and bumper—there’s a world of work-hard, play-hard accessories waiting to enhance your ride.
ACCESSORIES

Never settle for good enough. Designed, engineered and tested to the same demanding standards as our snowmobiles, Polaris Engineered accessories perfectly complement how you ride. This means they fit perfectly, mount effortlessly and perform to the highest standards in the backcountry, on the trail and everywhere in between.

YOUR ULTIMATE RIDE.

Developed by the same engineers who built your sled.

PROVEN

Over 55 years of building the world's best snowmobiles.

DESIGNED

TESTED

Proven in grueling winter conditions around the world.

TRUSTED
MATRYX delivers a rider-centric platform and accessory collection that puts you at the center of it all. Experience a level of control and complete accessory integration that blurs the line between rider and machine. Accessories that look, feel and function as one with the snowmobile, and a revolutionary new one-step Lock & Ride Flex attachment system.

POLARIS.COM
DON'T HAVE AN ELECTRIC START?

ADVANTAGES INCLUDE:

• Maintain GPS lock when you start your sled back up. Without battery kit, satellite will need to relocate, which can take up to 30 seconds while moving.

• Display will not shut down and reboot every time your sled is shut off

• Display has ability to run while sled is turned off, which allows you to use the screen while stopped.

DON'T HAVE AN ELECTRIC START?
FOR A BETTER EXPERIENCE WITHOUT ELECTRIC START, INSTALL THE P.I.D.D. POWER-UP KIT

ADVANTAGES INCLUDE:

• Display will not shut down and reboot every time your sled is shut off

• Display has ability to run while engine is turned off, which allows you to use the screen while stopped.

NEW 7S SOFT-TOUCH DISPLAY

DESIGNED WITH INTEGRATED RIDE COMMAND, THE 7S DISPLAY BRINGS A WHOLE NEW LEVEL OF INTUITIVE, TOUCH-SCREEN CONTROL IN A CUSTOMIZABLE DISPLAY

• 7” full-color, high-resolution LCD display with a glove-friendly touch-screen

• Enables Group Ride tracking without cell signal via V2V (Vehicle-to-Vehicle) technology

• View and share completed rides, with 3D flyover, in the RIDE COMMAND App

• Access to trails and topographical maps off-line, so you never have to worry about getting lost

**PREMIUM POLYESTER** Premium UV-Resistant
- Lightweight, custom fit and extreme protection for the ultimate trailerering experience
- Premium UV resistant and water resistant capability, ideal for extended outdoor storage
- Adapts to a full range of vehicle heights and ensures close contact with integrated straps

**CANVAS** Durable Cold-Weather Flexibility
- Control, heavy gauge canvas remains flexible in extreme cold temperatures
- Adapts to a full range of vehicle heights and ensures close contact with integrated straps
- Water resistant, UV resistant and versatile for trailerering or storage

**NEW OVERNIGHT COVER**
- Lightweight and packable ideal for overnight multi-day trips or parked in a shop

**UNDERCOVER**
- Made to go under Polaris snow cover to provide an additional level of protection
- Easy to install and remove

**COVERS**

- **Convertible Covers**
  - Advanced Polyester Blend That Adapts to Multiple Accessory Configurations
  - Convertible cover expands and adapts to fit various accessory configurations
  - Premium UV-resistant and water-resistant capability, ideal for extended outdoor storage
  - Adapts to a full range of vehicle heights and ensures close contact with integrated straps

- **Matryx**
  - Durable Cold-Weather Flexibility
  - Premium UV-resistant and water-resistant capability, ideal for extended outdoor storage
  - Adapts to a full range of vehicle heights and ensures close contact with integrated straps

- **Matryx Exclusive Features**
  - Matryx re-designed cinch straps are easier-to-use and hold secure for a premium fit
  - Convertible design expands and adapts to fit various Matryx accesses configurations

**Convertible Covers**

- **Advanced Polyester Blend That Adapts to Multiple Accessory Configurations**
  - Lightweight, custom fit and extreme protection for the ultimate trailerering experience

Only Polaris offers a tailored solution for your sled with unmatched reliability and performance.
TRACTION & CONTROL

RIP WITH AN IRON GRIP.

Whether you’re replacing your carbides or looking to add more traction and control for enhanced safety and performance, premiumWoody’s stud kits and carbide runners are exclusively engineered for your Polaris snowmobile.

CONTR O L FOR HOW YOU RIDE

STUDS

Choose the right stud length for your track and then select a pattern to best suit your riding style for a touch of added control to monster holeshots.

TUNNEL PROTECTION

Required protection for when you ride, these “wear strips” protect your tunnel and vital casting components from damage.

CARBIDES

Replacing or upgrading, add the right amount of ski control to match your track length, studding pattern and riding style.

STUD KITS

Includes everything to update your sled’s traction—studs, nuts, backer plates, template and track drill bit.

TUNNEL PROTECTION

CARBIDE WEAR STRIPS

CARBIDES need to be sharpened or replaced periodically due to normal wear and use. Rocks, cement, pavement and road crossings all contribute to carbide wear.

- • Ideal for sleds with a 137” track with 80% stud or less or those with 7” flags looking at corners at moderatespeds.
- • Set for use in the 236” track range with up to 15” flags or shorter track than with more than 35% studs.

SLED PROTECTION

CHOOSE YOUR LENGTH

BITE HARDER® CARBIDE SHARPENER

- Designed to be used with portable carbide sharpening equipment
- Carbide wear bar sharpening tool can use on the track or in the shop
- Quietly and easily partakes in efficient edge improvement
- Long-lasting diamond media can sharpen up to 50 wear bars

ICE SCRATCHERS

- Direct toe scrape into ski to melt and cool Ice
- Promotes a snow removal on SSS 159, cornering R, or
- A batch of three pairs can be installed onto a stock ski

RMK BOGIE WHEEL KIT

- Wheels install on stock skis
- Reduces flex near anchor pack insert and ice
- A batch of three pairs can be installed onto a stock ski

XCR TORSION BAR KIT

- Reduces body roll when coming
- All sizes per model, choose standard on box tool.

### Tracks

#### Four Keys to Track Selection

<table>
<thead>
<tr>
<th>Feature</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Length</strong></td>
<td>The inside circumference of the track is calculated by multiplying the drive pitch multiplied by the number of track required. It must be correct to the nearest inch for proper fit. Any round numbers will indicate modifications to the track frame.</td>
</tr>
<tr>
<td><strong>Drive Pitch</strong></td>
<td>The drive cog center distance around the circumference of the cage on the drive side. It must match the host existing tracks or the drive cage must be changed.</td>
</tr>
<tr>
<td>** Lug Height**</td>
<td>The distance the lug extends above the track surface.</td>
</tr>
<tr>
<td><strong>Width</strong></td>
<td>The measurement across the track governed by the width of the skid.</td>
</tr>
</tbody>
</table>

#### Track Types

<table>
<thead>

</table>
Every Polaris snowmobile has been engineered and manufactured to deliver performance. Keep it that way by using the same lubricants, cleaners and service parts our factory-trained technicians use.
SPARK PLUGS
New spark plugs engineered specifically for your Polaris snowmobile ensure quick starts, fuel efficiency and peak performance.

TRACKS
Enhance traction and control or replace a worn track with the latest trend in track pitch, length, lug height and pattern.

STUDS
Enhance your snowmobile’s traction, control and performance with premium studs designed for your sled, track and riding style.

RAIL SLIDERS
Replace worn hyfax with genuine Polaris rail sliders for a perfect fit and engineered compound for optimum performance.

BATTERIES
Cold weather, harsh conditions and time can degrade a battery. A genuine Polaris replacement ensures an exacting fit and starting performance.

DRIVE BELTS
Only genuine Polaris Engineered Drive Belts provide a fit and optimum compound for maximum performance and reliability.

BREAK-IN PERIOD
The break-in period for a new belt is 50 miles. During this time, vary at moderate speeds while avoiding wide-open throttle.

BATTERIES
Cold weather, track conditions and time can degrade a battery. A genuine Polaris replacement ensures an exacting fit and starting performance.

CARBIDES
Replace worn carbides or enhance your sled’s handling with engineered exact fit wear bars with your choice of high-wear carbide length.

FOR THE LIFE OF YOUR RIDE.
We do more than build the world’s greatest snowmobiles. We also work tirelessly to ensure the maintenance products you need are engineered to the same demanding standards. When it comes to drive belts, lubricants, batteries and more, we invest the time to make sure they’re right, so you can spend more time riding.

SEE OUR LATEST MAINTENANCE TIPS AT POLARIS.COM/MAINTENANCE-VIDEOS
PISTON DOME: Is it clean? Clean burning oil and our proprietary detergency system prevent carbon buildup and hot spots, allowing your engine to run at peak performance. Testing at 40,000 miles ensures protection in the environment that matters most—your engine.

MILES 40,000
OIL
GARAGELUBRICANTS & BELTSOILGARAGE & BATTERIESERVICE PARTSPOLARIS POWERMAINTENANCE

FOR THE LIFE OF YOUR RIDE, ONLY THE BEST WILL DO.
In the continued pursuit of creating the best oil on the market, we invest in rigorous testing to ensure our oil can handle the demands of today’s high-performance Polaris engines. The result is Polaris Engineered Lubricants that are tested and perfected to deliver excellent total engine protection for the life of your ride.

WHAT COUNTS IN OIL TESTING:
1. Does it protect the engine at low temperatures?
2. Does it protect the engine from high heat wear?
3. Does it keep the engine clean?

PISTON CHECKPOINTS

PISTON DOME: Is it clean? Clean burning oil and our proprietary detergency system prevent carbon buildup and hot spots, allowing your engine to run at peak performance. Testing at 40,000 miles ensures protection in the environment that matters most—your engine.

PISTON RINGS AND RING LANDS: Are they free of piston deposits and wear? This is important to preserve ring seal and extend piston life and maintain optimal power output.

PISTON PINS AND NEEDLE BEARINGS: In our continuing quest for lubricity, film strength and lubricity, film strength and our proprietary additives provide exceptional protection and heat control, maximizing power and bearing tolerances and performance.

PISTON SHOULDER: Is the GRAFAL® coating scratched or visibly impacted? If so, this could cause problems between the cylinder and piston due to insufficient lubrication which could eventually result in engine failure.

POLARIS BLUE
Synthetic-blend 2-cycle engine oil formulated for excellent protection and performance in all non-exhaust valve (non-VES) 2-cycle applications including oil-injected and premix.

VES
Low-smoke, low-emission oil formulation designed to improve exhaust valve performance. VES offers maximum engine protection.

VES EXTREME
Engineered, formulated and tested to easily handle the high demands of today’s high-performance Polaris snowmobile engines.

OUR FORMULATION

Polish synthetic formula
High lubricity
Proprietary detergent additive package

Your Advantage
Excellent cold flow for easier starting even down to -70°F (-57°C)
Prevents fuel accumulation and deposits, for easier starting even down to -70°F (-57°C)
Lesser total cost of ownership including extending the life of the engine

Polish synthetic formula
High lubricity
Proprietary anti-wear, corrosion and detergency additive package

Your Advantage
Engineering approved for use across all Polaris engine platforms
Cleaner burning resulting in improved fuel economy
Provides excellent protection for the life of your ride

LUBRICANTS + BELTS

ENGINEERED TO MAXIMIZE
THE LIFE OF YOUR RIDE

All Polaris fluids, from antifreeze to brake fluid, are developed for your vehicle. Trust the only fluids perfectly engineered for your ride.

CARBON CLEAN

12 Ounce | 20673020
1 Gal | 20673016
2.5 Gallon | 20673019

SYNTHETIC CHAINCASE LUBE

- Maximum performance and reliability, engineered for wear, rust and corrosion protection of high-speed, high-tension chains and sprockets.
1 Quart | 2089514
1 Gallon | 2089513
55 Gallon Drum | 2088512

DOT 4 BRAKE FLUID

- Superior high-temperature characteristics, plus anti-squeal additives around the life of brake-system components and provide consistent, positive braking.
12 Ounce | 2071309

OIL

- Unique oil providing outstanding protection and proven performance.

LUBRICANT ACCESSORIES

ADVANCED FUEL TREATMENT
12 Ounce | 2088410
2.5 Gallon | 2088417

SHOCK OIL

- Specialized fluids in unique proportions to achieve shock absorb and brake resistance under extreme conditions.

FUGGING OIL

- Eliminates rust and corrosion on internal engine parts during out of season storage.
12 Ounce | 2077091

ALL SEASON GREASE

- Extends all-season grease designed to protect and lubricate in harsh conditions and extreme temperatures.

3 Barrels/pack | 2071302
14 Ounce | 2077403

DRIVE BELTS

POLARIS ENGINEERED

Our investment per belt
- 20,000 miles of field testing
- Thousands of dyno hours
- 8+ months of development (3,000+ design hours) per belt
- 1,200+ vehicle validation hours
- Collaboration with powertrain & clutch engineers

Your advantage
- No clutch recalibration
- Less wear & tear due to heat
- Ensure maximum performance of your vehicle
- More time out riding, less time wrenching

POLARIS.com

* Belt dimensions are gross nominal dimensions. There is a ± tolerance of ±0.010 inch. Shaft setup must be inspected prior to belt installation and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive-belt deflection (tension), clutch offset and alignment must be adjusted properly. See your Service Manual for further details on drive-belt measurement inspection.
**CLEAN YOUR VEHICLE**

**MUD SHIELD® PRE-TREATMENT**
- Unblocks the adhesion of dirt and mud, making cleaning your vehicle faster and easier
  16 Ounce Aerosol | 3203020 | **$9.99**

**NEVER RUST SPRAY®**
- Synthetic formula highly resistant to water protects against rust and corrosion while ablating metal surfaces
  16 Ounce Aerosol | 3203030 | **$10.99**

**ALL-PURPOSE CLEANER**
- Concentrated professional grade formula powers through stubborn dirt, oil and grime, leaving an invisible, dirt-resistant barrier for long-lasting results
  32 Ounce | 3203305 | **$16.99**

**GLASS CLEANER**
- Professional grade, non-streak formula cleans through greasy, dirty and film, leaving an invisible, dirt-resistant barrier for long-lasting results
  16 Ounce | 3203442 | **$4.99**

**SHOP**
- Extend your battery life with BatteryMINDer® and these tips:
  1. Store batteries in a cool, dry location.
  2. Check that the battery connections are tight. Cable and post corrosion can cause the battery to be not charged or shifted by hand.
  3. If your battery has a chain or lock, be sure to remove it.
  4. Clean your battery—use a soft brush to wash the top of the battery, then bake soda to remove grime.
  5. Connect a BatteryMINDer® after using your vehicle even if it's in regular use.

  2030411 | **$19.99**
POLARIS ENGINEERED SERVICE PARTS DELIVER UNMATCHED PERFORMANCE AND FIT FOR YOUR SLED.

Our engineers at Polaris create snowmobile parts that push the limits of weight versus strength. We build our parts to feel lighter without sacrificing strength and durability. But over time, your sled will eventually need some service. When we’re engineering our high-performance components, we keep serviceability in mind. From a quick clutch inspection to a ski alignment, we build our products as a system, so that anyone with the right tools and training can easily maintain their vehicle from their own garage—and get back on the trails where your snowmobile belongs.

MEN’S JACKET & BIB SIZING

WOMEN’S JACKET & BIB SIZING

* Measure sleeve length from center back neck.

* Superior Durable Water Repellency (DWR)

A durable finish that repels water allowing snowboarders to stay dry on the trail. It provides maximum breathability while allowing vapor to escape from the fabric.

DIT & ECE 22.05 CERTIFIED

The Department of Transportation (DOT) is tasked with enforcing the National Highway Traffic Safety Act. A motorcycle helmet must be certified to an ECE-22 (Canada) or DOT (U.S.) standard in order to pass a series of impact tests.

The Economic Commission for Europe (ECE) standard, R 22.05, is the most common standard used internationally. It is recognized by over 50 countries. To be ECE 22.05 certified, the helmet must pass a series of rigorous testing in accordance with the testing methodology specified in the PAPYRUS®

BATTERYMINDER®

Enhance your ride as ready when you are and extend your battery life with BatteryMinder® products.

Camso®

Customer-focused, world-class manufacturer and supplier of high-performance snowmobile tracks.

BATTERYMINDER®

Enhance your ride as ready when you are and extend your battery life with BatteryMinder® products.

FILOCK® MAGNETIC TECHNOLOGY

As easy on and easy off! Magnetic closure device that delivers a quick, secure helmet strap closure on select 509 helmets.

3M® SCOTCHLITE® REFLECTIVE MATERIAL

The BOA® lacing system is easier to get on and off than traditional fastenings with no laces to tangle or tuck, allowing for quick adjustments.

YKK® ZIPPERS

Patented 3M® Scotchlite® Reflective Material provides nighttime visibility. Eliminates cumbersome lacing with a quick, secure helmet strap closure on select 509 helmets.

SUPERIOR DURABLE WATER REPELLENCY (DWR)

A durable finish that repels water allowing snowboarders to stay dry on the trail. It provides maximum breathability while allowing vapor to escape from the fabric.

YKK® ZIPPERS

Patented 3M® Scotchlite® Reflective Material provides nighttime visibility. Eliminates cumbersome lacing with a quick, secure helmet strap closure on select 509 helmets.

MOUNTAIN APPAREL

Uninsulated outerwear made of TECH54 10k/10k material.

A waterproof and breathable membrane bonded to the shell fabric to prevent precipitation from saturating the exterior of an outerwear piece.

The Economic Commission for Europe (ECE) standard, R 22.05, is the most common standard used internationally. It is recognized by over 50 countries. To be ECE 22.05 certified, the helmet must pass a series of rigorous testing in accordance with the testing methodology specified in the PAPYRUS®
