TIMBERSLED ANYWHERE YOU WANT TO GO.

Since 2010, Timbersled has led the industry in developing and pushing the sport of snow biking. With a passion for performance and innovation as our road map, we forged into uncharted territory. With the combined forces of Timbersled — the leader in snow bikes — and Polaris — the leader in powersports — where will we take you? Anywhere you want to go.

Shown with Optional Accessories: Timbersled TRIO, Timbersled Fuel Can, Expandable Essentials Bag, Ski-Paras Bag, Hunter Pak Bag, Timbersled Secrets...
2021: WHAT’S NEW

INNOVATION NEVER RESTS

For the past decade, we’ve been introducing the sport of snow biking to the world. We’ve worked to blend the speed and agility of your dirtbike with the terrain capabilities of a snowmobile. For 2021, we’re Continuing that tradition with more models that suit more riders. Ride with us.

VELOCITY MODELS

Introducing two new ultra-premium Velocity models. The ARO 3 ve 120 and RIOT Velocity models bring top-shelf suspension for the ultimate in performance snow bike riding. In addition, both take feature lightweight drivetrain components from our race program, putting the power down even faster.

120SX

BORN TO RACE. BUILT TO WIN.

The Timbersled 120SX is a SnowCheck exclusive, race-inspired version of our ultra-successful 120R Timbersled kit. Lightweight components and exclusive FOX® Racing suspension make this the most capable race on the track.

TIMBERSLED RIOT 120 S // TIMBERSLED ARO 129 S

Enter the Timbersled RIOT and Timbersled ARO S. All the performance and fun of a Timbersled, now with a 3” lower washback. The smaller size is a big deal, with an easy to ride, easy to control Timbersled now available to all riders. Lowering the center of gravity transforms the handling and stability, opening the door to a more accessible snow biking experience for both new and experienced riders alike.

INNOVATION NEVER RESTS

For the past decade, we’ve been introducing the sport of snow biking to the world. We’ve worked to blend the speed and agility of your dirtbike with the terrain capabilities of a snowmobile. For 2021, we’re continuing that tradition with more models that suit more riders. Ride with us.
THE BEST DEEP SNOW BIKES IN THE BACKCOUNTRY.

“TRIO ALLOWS YOU TO EASILY TUNE YOUR FRONT END WITHOUT THE NEED FOR A REVALVE.”
— CURT HOFSINK, TIMBERSLED AMBASSADOR

3" Timbersled Traverse 3 Track: Climb the highest mountains in the deepest snow with the industry’s first 3" track. This snow bike-specific track provides ultimate performance in deep snow conditions with increased flotation and traction.

ARO 3 VELOCITY
DEEP POWDER DOMINANCE.

• Timbersled ARO Chassis and Suspension
• NEW 129" x 11.5" x 3.0" Timbersled Traverse Track
• 11.5" Timbersled Traverse Ski and Spindle
• Walker Evans Velocity Shocks
• Race Inspired Lightweight Drivetrain
• 5 Color Choices Available: Black, White, Orange, Red, Blue

NEW Walker Evans Velocity Shocks: The all-new Walker Evans Velocity shocks are the most premium, high performance shocks ever offered on a Timbersled. Through the position sensitive needle and tuned remote reservoir design, they offer superior feel and bottom out resistance. High and low speed compression adjustment allow the shock to be fine-tuned for any terrain.

ARO 3 LE
DEEP POWDER DOMINANCE.

• Timbersled ARO Chassis and Suspension
• NEW 129" x 11.5" x 3.0" Timbersled Traverse Track
• 11.5" Timbersled Traverse Ski and Spindle
• FOX® QS3® Shocks

NEW Color Choice: Smokey Gray"
The Timbersled ARO platform revolutionized the snow bike industry. It optimizes a bike’s performance by making more efficient use of the engine’s power, delivers easy and responsive handling, and dramatically improves deep-snow performance. The ARO platform was built with the rider in mind with the easiest install, best handling and industry leading durability.

WHAT MAKES AN ARO

TIMBERSLED ARO129

UNMATCHED HANDLING. ULTIMATE VERSATILITY.
• Timbersled ARO Chassis and Suspension
• 129” x 11.5” x 2.5” Timbersled Traverse Track
• 11.5” Timbersled Traverse Ski and Spindle
• Timbersled IFP Shocks

TIMBERSLED ARO137

DEEP POWDER DOMINANT. UNRIVALED TRACTION.
• Timbersled ARO Chassis and Suspension
• 137” x 11.5” x 2.5” Timbersled Traverse Track
• 11.5” Timbersled Traverse Ski and Spindle
• Timbersled IFP Shocks

THE MOST PRECISE BIKES ON SNOW.

THE MOST PRECISE BIKES ON SNOW.
WHY TIMBERSLED?

For many riders, snow biking is a new sport. Experienced riders are always looking for their next adventure. From demo events, Dealer Test Rides, Ambassadors or rental opportunities, we want everyone to learn about and experience this great sport. Learn more at timbersled.com

MORE MODELS

We take pride in building a full range of systems that fit a wide range of modern motocross and off-road dirt bikes. From the intro level Ripper to the X-Games proven 120R, we are uniquely focused on building what riders demand.

MORE SUPPORT

We’re proud to be backed by Polaris, the world leader in powersports engineering and design. Easily integrated, industry leading accessories and an extensive dealer network make it clear Timbersled is the easiest ownership experience.

EASIEST TO RIDE. EASIEST TO OWN. TIMBERSLED.

Since 2010 Timbersled has led the industry, developing and revolutionizing the sport of snow biking. With a passion for performance, innovation and the backing of 65 years of powersports experience, we continue to forge into uncharted territory.

TIMBERSLED TOUGH PERFORMANCE STANDARDS FEATURED ON ALL RIOT & ARO KITS

TIMBERSLED TRAVERSE SKI

Tri-keel shape provides a better grip and precise handling. Ski allows for better lean angles on hard-pack and more control in deep snow.

EASY INSTALL

True bolt-on design makes it the easiest to install and convert. The pre-bled brake system combined with no air box modifications and no drilling to the spindle translates to quicker, easier changeovers.

TIMBERSLED BRAKE SYSTEM

Complete pre-bled brake system with Brembo® Master Cylinder provides consistent braking performance on all bikes.

TIMBERSLED BRAKE SYSTEM

Complete pre-bled brake system with Brembo® Master Cylinder provides consistent braking performance on all bikes.

1:1 SKI/TRACK RATIO

The track follows the path established by the ski and yields precise sidehilling and carving.

TIMBERSLED TOUGH PERFORMANCE STANDARDS FEATURED ON ALL RIOT & ARO KITS

EASY INSTALL

True bolt-on design makes it the easiest to install and convert. The pre-bled brake system combined with no air box modifications and no drilling to the spindle translates to quicker, easier changeovers.

TIMBERSLED RIOT 120
THE MOST DIRT BIKE-LIKE FEEL ON SNOW.

"WHEN IT'S BELOW FREEZING, YOU CAN BET I'M GLAD I RIDE WITH GAUNTLETS." - TIMBERSLED ATHLETE

NEW Walker Evans Velocity Shocks
The all-new Walker Evans Velocity shocks are the most premium, high performance shocks ever offered on a Timbersled. Through the position sensitive needle and tuned remote reservoir design, they offer superior feel and bottom-out resistance. High and low speed compression adjustment allow the shocks to be fine-tuned for any terrain.

WHAT MAKES A RIOT
INDUSTRY LEADING FUN FACTOR
The Timbersled RIOT combines proven Timbersled ARO technology with a Timbersled RIOT specific-patented rear suspension to create a dirt bike-like experience on the snow. The Timbersled RIOT was born ready to wheelie, climb, or make a split-second line change. It’s a riot in the meadows, on the trails, or in the mountains. In fact, it’s a riot wherever you ride.

WHAT MAKES A RIOT 120 VELOCITY
The all-new Walker Evans Velocity shocks are the most premium, high performance shocks ever offered on a Timbersled. Through the position sensitive needle and tuned remote reservoir design, they offer superior feel and bottom-out resistance. High and low speed compression adjustment allow the shocks to be fine-tuned for any terrain.

RIOT 120 LE
ULTIMATE DIRT BIKE-LIKE EXPERIENCE

WHAT MAKES AN S MODEL

The S Models are new for 2021. Built on platforms that have redefined the snow bike industry. They bring you all the great attributes of a Timbersled RIOT or Timbersled ARO but they do it in a more approachable package. Featuring a 3” lower seat height, they not only create a lower standover height allowing riders of all heights to ride, but create a lower center of gravity for unmatched agility and cornering.

FOR 2021, WE INTRODUCE THE ALL-NEW S MODELS. WE LOWERED THE SEAT HEIGHT AND RAISED THE BAR ON AGILITY AND CORNERING.

3” LOWER SEAT HEIGHT
More approachable stance and increased confidence

INCREASED CONTROL
Increased cornering and decreased pitch

IMPROVED EFFICIENCY
Maximized for 250cc performance and response

RIOT 120s

- Timbersled RIOT S Chassis and Suspension
- 120” x 11.5” x 2.5” Timbersled RIOT Track
- 11.5” Timbersled Traverse Ski and Spindle
- Timbersled S-Tuned Timbersled IFP Shocks

AVAILABLE IN LIMITED EDITION MODELS

- FOX® QS3® Shocks

- Exclusive Color Options: Black, White, Orange, Red, Blue

ARO 129s

- Timbersled ARO S Chassis and Suspension
- 129” x 11.5” x 2.5” Timbersled Traverse Track
- 11.5” Timbersled Traverse Ski and Spindle
- Timbersled IF Shocks

“NOTHING IS MORE MANEUVERABLE AND QUICKER SIDE TO SIDE.”
- LEVI LAVALLEE AFTER RIDING THE TIMBERSLED RIOT S

- LEVI LAVALLEE AFTER RIDING THE TIMBERSLED RIOT S
We build accessories every rider needs to elevate their ride. Genuine Timbersled accessories are the best choice because they are designed specifically for Timbersled models, they install seamlessly and provide our riders with the highest levels of style, durability, and performance.

ESSENTIAL STORAGE OPTIONS

(A) NEW NUMBER PLATE BAG 289470
- All-new attachment system makes install and removal easier than ever
- Compression molded from design with accordion style opening
- Provides easier access to contents
- Padded internal pockets for electronics, internal storage dividers for tools

(TIMBERSLED ROOT STORAGE BAG 289426)
- Tunnel storage for front of RIOT tunnel has side access to contents and a water-resistant/compression molded design

(B) NEW SUB-FRAME BAG 2894061
- All-new attachment system makes install and removal easier than ever
- Easily attaches onto the sub-frame extrusion of the ARO chassis
- Protective waterproof sub-frame bag, perfectly fits Timbersled Tool Roll

(TIMBERSLED QUICK COVER 2893649)

(C) NEW SUB-FRAME BAG 2894691
- All-new attachment system makes install and removal easier than ever
- Easily attaches onto the sub-frame extrusion of the ARO chassis
- Protective waterproof sub-frame bag, perfectly fits Timbersled Tool Roll

(D) TOOL ROLL 2883652
- 17 different compartments for your gear, so you’ll have everything you need if you decide to make a quick stop and get back on your bike

(E) NEW EXPANDABLE TUNNEL BAG 2894800
- All-new attachment system makes install and removal easier than ever
- Made of waterproof compression-molded nylon with an expandable accordion-style flap for increased capacity
- Interior Velcro® straps to secure your cargo

(F) DRY BAG 2892794/LARGE / 2892793/SMALL
- Roll top design, with welded seams

(G) HEATED HANDLEBARS 2894328
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(H) HANDLEBAR GAUNTLETS 2893651
- Provide a rider’s hand with protection from wind, cold, and obstacles
- Can be installed on snow bikes with or without handguards
- Made of durable compression-molded nylon

(I) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(J) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(K) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(L) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(M) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(N) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(P) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(Q) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(R) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(S) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(T) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(U) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(V) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(W) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(X) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(Y) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped

(Z) TIMBERSLED PRO TWIN SHOCK 2893170
- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, run off engine coolant, not reliant on electrical system of bike
- Thermostat (2884180) sold separately for bikes not originally equipped
