2022 SNOW BIKE
REFERENCE GUIDE

ANYWHERE
YOU WANT
TO GO.

Since 2010 Timbersled has revolutionized the sport of snow biking. With a passion for performance, innovation and the backing of 65 years of powersports experience, we continue to forge into uncharted territory. This guide is meant to help provide key info to make your introduction to Snow Biking as easy as it is fun. We've pulled together our recommendations for what it takes to seamlessly convert your dirt bike for winter use, along with showcasing our collection of accessories, replacement parts and branded apparel. Timbersled. Anywhere you want to go.

SNOW BIKING 101

Welcome to Timbersled! We're excited that you've chosen to ride with us!

Your dirt bike is designed to rip on dirt, but with a Timbersled kit and a few simple modifications, you can shred mountain peaks and bottomless snow all winter long! We have created this guide to help you unlock your Timbersled's full potential.

RECOMMENDED ADD-ONS AND ACCESSORIES

1 AIR INTAKE

- Prefilters: Bike specific, see list
- TSS Intake: 2882639

The foam air filter in your dirt bike is designed for tiny particles of dust, not the moisture of snow. The best way to keep the snow and moisture out is a prefilter, which fits over the top of a dry foam filter. Learn more about your filter options on page 26.

2 ELECTRICAL SYSTEM

- Batteries: See dealer
- Jump Pack Adaptor: 2830546

Many newer dirt bikes that are equipped with electric start feature lightweight, Lithium Ion batteries. These work well in the summer months, but sometimes struggle in the extreme cold. Some bikes have the option to swap out for a larger lead acid battery, which can offer more Cold Cranking Amps than Lithium Ion. No matter which battery you have, the Jump Pack Extender harness is a great addition, as it allows a jump pack to be used without accessing the battery, providing quick access for the jump pack to help start the engine. Learn more on page 18.

3 THERMOSTAT

- Thermostat: 2884180

An engine runs best when it is at the optimal temperature. If your dirt bike didn't come with a thermostat, you should add one. The Timbersled Thermostat is one of the most important upgrades you can make to your Bike. It installs easily in the cooling system to maintain the optimal temperature no matter the weather. The Timbersled Thermostat allows you to easily add on the Timbersled Heated Handlebars. Learn more on page 10.

4 OIL

- Polaris Timbersled OW-40 Oil: 2883483

The proper oil is incredibly important for 4-stroke dirt bike engines. The typical summer oil can be too heavy, putting unnecessary stress on your bike's engine and starting system. Additionally, snow bike engines experience significant temperature fluctuations, resulting in abnormal moisture build up. The Timbersled OW-40 has been specifically engineered for the demands of a snow bike, and is a key to snow bike engine durability and performance. Learn more on page 27.

TAKE YOUR RIDE TO THE NEXT LEVEL

Once you've built your snow bike with the essentials, riders ask what's next? What else can I add to enhance my riding setup? We've been doing this for over a decade and know that a few key Timbersled Engineered accessories will ensure you have the best experience on the snow. From performance and comfort to storage for all your gear, Timbersled Engineered accessories have you covered.

FUEL CAN Pg. 09: The Timbersled Fuel Can keeps you riding from sunrise to sunset, with 2.9 gallons of extra fuel. The EPA certified design securely mounts to Timbersled ARO and Timbersled RIOT models, with a shield to protect from exhaust heat.

HEATED HANDLEBARS Pg. 10: On those cold weather, fresh powder days, warm hands are a necessity. The Timbersled Heated Handlebar Kit flows coolant through the handlebars, keeping them warm all day.

STORAGE Pg. 12: For the extra gloves, goggles, snacks, and whatever else you need to bring with on the ride, Timbersled Engineered storage solutions have you covered. With a waterproof, quick attach system, the Timbersled storage bags easily mount to any Timbersled ARO or Timbersled RIOT model.

TIMBERSLED TRIO Pg. 28: The patented Timbersled TRIO front shock mounts behind the forks on your dirtbike, providing improved performance and handling as well as a smoother ride. Additionally, it provides the correct spring rate and dampening required for all terrains.

TIMBERSLED ACCESSORIES

We build accessories every rider needs to elevate their ride. Genuine Timbersled accessories are the best choice because they are designed specifically for Timbersled models, they install seamlessly and provide our riders with the highest levels of style, durability, and performance.

FUEL CAN

2884622 \$199.⁹⁹ US // \$259.⁹⁹ CAD

- Make sure you're ready to ride further and longer with this fuel can
- Boasting a 2.9 gal. capacity, this fuel can includes our installation kit [2883312] to attach it to your Timbersled tunnel top
- Designed to sit low and forward for improved handling
- Includes shield to help shed snow and keep the can clean, while also shielding it from heat sources
- Installs and removes in seconds. Installation on Timbersled ARO and Timbersled RIOT requires no drilling. Raw or Mountain Horse kits require drilling four gas can locator holes using the included drill template

FUEL CAN INSTALL KIT (REPLACEMENT)

2883312 \$129.⁹⁹ US // \$169.⁹⁹ CAD

NEW

CYCRA® BARK BUSTER HAND GUARDS
2889221 \$149.⁹⁹ US // \$194.⁹⁹ CAD

- Black anodized bars and white hand shields with custom Timbersled graphic
- Large area to accommodate hands and levers
- High quality injection molded enduro style hand shields
- Integrated composite bumper to protect Probend bars
- Includes Powergrip bar end set and hardware to mount to either OEM bars or Timbersled heated bars [2884328]
- Includes Cycra® T2 style bar clamps for 1 1/8" handlebars
- Sold in pairs

NEW

CYCRA® HAND SHIELDS
2889222 \$49.⁹⁹ US // \$69.⁹⁹ CAD

- Replacement white plastic hand shields for Cycra® Bark Buster Hand Guards
- Sold in pairs
- Does not include mounts

Thermostat PN:
2884180

Coolant hoses
not shown

HEATED HANDLEBAR
2884328 \$299.⁹⁹ US // \$399.⁹⁹ CAD

- Custom Pro-Taper® bars specifically engineered for a more comfortable ride, runs off engine coolant, not reliant on electrical system of bike
- Specifically designed control valve provides infinite temperature adjustability. The off position provides a bypass loop, eliminating deadheading the water pump and cooling system hot spots
- Universal to work with most dirt bikes, but if bike has 7/8" bars, kit 2884327 is required to adapt the heated 1 1/8" bars
- Bar bend is similar to the factory KTM® bar bend
- Requires Thermostat Kit (2884180) sold separately

THERMOSTAT
2884180 \$149.⁹⁹ US // \$199.⁹⁹ CAD

- Fits a variety of makes and models
- Includes 180° thermostat and all necessary mounting hardware
- Works on most KTM®, Husqvarna®, Yamaha®, Honda® and other dirt bikes. Kawasaki® bikes require additional tubing length and sizing adapters that must be customer sourced

NEW

RIGID® IGNITE SPOT LIGHT KIT
2889414 \$349.⁹⁹ US // \$454.⁹⁹ CAD

- Kit includes everything needed for installation: pair of Rigid® Ignite Series Spot Lights, harness, mounting brackets and related hardware
- Works great with the Number Plate Bag [sold separately]

COMPONENTS

SPOT LIGHTS

- Light packs 1,000 raw lumens in a spot beam pattern to enhance visibility
- Durable, impact-resistant polycarbonate lens
- 50,000 hour lifespan
- Dimensions: 1.4" x 1.4" x 2"
- Includes 2 lights

LIGHT KIT BRACKET

- Includes two light brackets, bolts and spacers
- Features integrated tie down mounts

LIGHT KIT WIRING HARNESS

- Fused connection to battery
- Harness features additional SAE® connection that can be used with a battery tender while storing or additional electrical accessories while riding

CAPACITY
7.5
LITERS

TIMBERSLED PROTECTION & SAFETY

JUMP PACK
2830547 \$124.⁹⁹ US // \$169.⁹⁹ CAD

- 1,000 Amp UltraSafe Lithium Jump Starter
- Portable lithium-ion battery jump starter pack that delivers 1,000-amps for jump starting a dead battery in seconds
- Not compatible with Jump Pack Extender [2883654]

JUMP PACK PROTECTION CASE
2830548 \$18.⁹⁹ US // \$26.⁹⁹ CAD

- Lightweight, durable, and rugged custom exterior that offers protection from moisture, impact, dust, and environmental factors

JUMP PACK ADAPTOR
2830546 \$22.⁹⁹ US // \$31.⁹⁹ CAD

- Jump pack extender gives easier access to your battery if a jump is needed
- Connects directly to the battery itself
- Not necessary to remove your seat using this extender
- Compatible with Jump Pack [2830547]

TOW ROPE
2883655 \$39.⁹⁹ US // \$55.⁹⁹ CAD

- Comes ready to use and built in a Y pattern, securely mounting to the foot pegs of the towed bike
- Strong, tested, and lightweight
- An essential for any rider venturing off the beaten path
- Allows the towed rider the most control and confidence possible

TIMBERSLED ARO EXTREME REAR BUMPER
\$59.⁹⁹ US // \$83.⁹⁹ CAD

- Sturdy, lightweight aluminum
- Integrated raised grab handle
- Fits Timbersled ARO kits only

WHITE 2883657-133
RED 2883657-293
BLACK 2883657-458
ORANGE 2883657-589
LIME 2883657-630

TIMBERSLED ARO SNOW FLAP
2883796 \$49.⁹⁹ US // \$69.⁹⁹ CAD

- Reduces debris from flying up off the track
- Does not work with Mountain Horse or Timbersled RIOT

RIDE SAFELY

TODAY SO YOU CAN RIDE SAFELY TOMORROW.

Polaris is proud to partner with PIEPS®, the world’s foremost authority in snowmobile avalanche safety equipment. Designed with riders in mind, PIEPS® has over 45 years of experience in developing and testing the absolute best in avalanche airbag, beacon, probe and related safety technologies. Ride with confidence knowing you have state-of-the-art equipment and the skills to face a backcountry emergency.

PIEPS® JETFORCE BT

ADVANCED LIGHTWEIGHT PERFORMANCE
LOADED WITH TECHNOLOGY

- Smartphone updates and Bluetooth® connectivity, automatic airbag deflation and modular booster system adapt to your riding needs.
- Digital, lithium-ion-powered turbine fan system allows for practice deployments at home
 - Quickly and conveniently recharge with micro-USB
 - Integrated self-diagnostic lights inform when pack is ready or requires charging
 - Deployment handle can be located on the left or right for rider-preference control
 - Available in 10L, 25L and 35L capacities for riding essentials
 - Adjustable hip belt and leg loop ensure packs stay secure while riding

- JetForce BT Exclusive Extras
- Automatic deflation sequence creates an air pocket under the snow
 - Update software with Bluetooth® connectivity and PIEPS® app
 - Customize pack's capacity with interchangeable booster in 10L, 25L or 35L (sold separately)

POLARIS Timbersled Tip

HOW DO YOU TRAVEL?

Whether you're unloading for your first time at the trail head or you've done it a hundred times, we're all about sharing our experiences to help give you the best day. Nobody wants to have a problem in the backcountry, but it always helps to be prepared. Watch for these Timbersled Tips, and learn how our athletes, ambassadors, test riders and engineers go prepared.

Timbersled TRAVEL ESSENTIALS:

- PIVOT DOLLY
- LOADING RAMP
- FUEL CAN + RACK
- COVERS

PIVOT DOLLY

2889086 \$349.⁹⁹ US // \$454.⁹⁹ CAD

- Attach in seconds to easily maneuver or load your bike
- Added pivot functionality with enhanced storage security with the safety locking pin
- Unique pivot system allows locking in a stable position, unlock for more maneuverability
- Install included spindle across shaft using 2 bolts and pre-drilled holes on your Timbersled ARO or Timbersled RIOT spindle including S models
- Made of powder-coated steel
- Does not work with Mountain Horse Spindle

QUICK COVER

2883649 \$189.⁹⁹ US // \$249.⁹⁹ CAD

- Keep your bike protected from road grime, bugs, rain, snow and sleet
- Made of thick and durable canvas material
- Easy to install

WHEEL DOLLY MOUNT BAR

2208170 \$19.⁹⁹ US // \$23.⁹⁹ CAD

- Attaches to spindle
- Includes bolts
- Use as a replacement or use on an extra bike, allows you to use one pivot dolly for multiple bikes

WHEEL DOLLY REPLACEMENT LOCKING PIN & TETHER

2208891 \$15.⁹⁹ US // \$21.⁹⁹ CAD

CANVAS COVERS

\$229.⁹⁹ US // \$309.⁹⁹ CAD

- Available in both 120 in. and 129/137 in. lengths
- Each cover is custom cut and sewn for a snug fit
- Gas cap access allows you to fill without uncovering bikes
- Durable material features a UV coating and provides rugged protection from rain, sleet, snow, road grime and more
- Large Velcro®-secured openings allow tie-down straps to pass through cover

120 2882587

129/137 2882588

ALL SPORT RAMP PRO

2882594 \$399.⁹⁹ US // \$549.⁹⁹ CAD

- Transport your Timbersled with any pickup with our All Sport Ramp Pro
- Designed in coordination with snowmobile transport experts
- Bi-fold aluminum and composite ramp weighs just 52 lbs.
- Can support up to 1,500 lbs.
- The aluminum surface is “decked” with Caliber’s® exclusive Low Pro Grip Glides, providing a slippery surface for the ski to glide on, but plenty of traction for the track and your boots to “walk-up” the incline

ALL SPORT RAMP TRACTION BAR

2882595 \$99.⁹⁹ US // \$129.⁹⁹ CAD

- Ideal companion to our All Sport Ramp Pro
- Adds an additional 4 ft. of length to our ramp providing additional ground traction
- Attaches easily to the All Sport Ramp
- Features Caliber® Low Pro Grip Glides for superior traction

TIMBERSLED PERFORMANCE

Why should you choose Timbersled Engineered Parts? Because you know a machine is only as strong as its weakest component. You love your ride. You take it seriously and having the best is important to you. You need every piece to fit together perfectly the way it was engineered to. That's why you got a Timbersled and that's why you maintain it with Timbersled Engineered Parts.

PRE-FILTERS HELP KEEP THE SNOW OUT OF YOUR ENGINE ON THOSE

DEEP SNOW DAYS

AIR INTAKE

TSS AIR INTAKE

2882639 \$229.⁹⁹ US // \$298.⁹⁹ CAD

- Better breathability in deep powder snow
- Use in place of stock airbox and filter

INCLUDES:

[2207146] FILTER-PRE AIR INTAKE TSS
[2207147] HOSE-AIR FILTER BASE TSS
[2207148] COUPLER-AIR TSS

INDIVIDUAL REPLACEMENT PARTS

FILTER-PRE AIR INTAKE TSS 2207146 \$34.⁹⁹ US // \$46.⁷⁹ CAD

2015-2021 Yamaha® WR250F / WR450F

HONDA® 2884639 \$19.⁹⁹ US // \$25.⁹⁹ CAD
2019-2020 Honda® CRF450X / CRF450
2019-2020 Honda® CRF450L

CHAIN LUBRICANT

2889461 \$12.⁹⁹ US // \$14.⁹⁹ CAD

- Designed for Timbersled drive chain
- Excellent cold weather performance and protection
- Wax-style lubricant displaces moisture and protects against rust and corrosion
- Protects from friction and wear to extend life of chain and sprockets
- Safe to use on all X, Z, and O-ring chains

REKLUSE® RADIUS

- Prevents engine stalls
- Increased power transfer over OEM
- New internal adjuster with revised pressure plate design provides improved lever performance
- Option to adjust installed gap internally or externally
- Fully tunable to suit rider and/or terrain
- Longer clutch pack life with less adjustment over time
- Proprietary billet components offer superior durability
- Cooler operating temperatures and incredibly efficient clutching provides extended clutch life
- Available for popular Honda®, Kawasaki®, Suzuki®, Yamaha® and KTM®/Husqvarna® models
- Reference Timbersled.com for specific bike fitment

STARTING AT \$999.⁰⁰ US // \$1,299.⁹⁹ CAD

FULL SYNTHETIC 0W-40 4-STROKE ENGINE OIL

2883483 \$18.⁹⁹ US // \$20.⁹⁹ CAD

- The only oil specifically engineered for 4-stroke snow bikes
- 100% PAO and Ester full-synthetic base stock formula resists shear and protects in extreme conditions
- 0W-40 formula offers easy starting in extreme cold
- Optimized clutch additives help prevent slippage and glazing
- Meets JASO MA/MA2FULL
- Advanced moisture control additives protect engine from wear and corrosion
- 4x more corrosion protection
